A**

Total Joint Care

- Now with Omega-3s and Equanol for discomfort
- Replenish synovial fluid that cushions and lubricates the joint
- May reduce inflammation, discomfort and stiffness associated with everyday exercise
- Support the ligaments and tendons

Total Canine Relief

- Eases the effects of aches and swelling associated with everyday exercise
- Promotes faster recovery
- Beneficial for both joints and tendons without causing an upset stomach
- No harsh side effects

Total Calm & Focus

- Developed to calm your nervous, anxious canine and enhance focus
- No drowsy effects
- Perfect for hyperactivity, separation problems, thunderstorms, fireworks, grooming, vet visits, traveling, destructive or aggressive behavior and digging and scratching

Total GI Health

- One of the most comprehensive gastrointestinal products ever produced
- Addresses poor absorption, occasional intestinal discomfort, loose stool and upset stomach associated with normal dietary indiscretions
- Promotes growth of healthy intestinal flora
- Fast response time

Total Pre & Probiotic

- The next generation of Prebiotics and Probiotics with 50 million cfu per gram of powerful Probiotics
- Will rebalance and support total digestive health
- It may also support body condition, immune system, and disposition in the animal

5X STRONGER

Plaque Re-Release®

- Reduce plaque and tartar buildup
- Exact dosage
- Freshens breath
- Non-Abrasive, safe on teeth and gums
- Works below the gum line
- Reduced risk of damage to teeth and gums
- Cleans teeth

Letter from the President

The UKC Performance Classic just recently crowned TC's Chairman of the Board (Boss) owned & handled by Todd Craven (OH) as Champion. Congratulations! Once again, the Rock Creek Field Trial Association hosted the event and what a performance week it was! Extreme heat and limited cover provided challenges for new National Trial Chair Bo Nutt (AR-LA). Aptly assisted by Debi Heaton (TX) as trial coordinator, Bo assembled a stellar team of Judges in Bob McCandless (KY), Ashley McCandless (KY), Kevin Sprick (IL), and Mark Kohlberg (IL). Field Marshals Gina Nutt (AR-LA) and Frank Downs (MW) kept the trial moving along as briskly as summer's sweet tea pours into a glass.

A truly welcome addition to our trial site, guests included Courtney Bastian, Purina Field Consultant. It is a wonderful thing for our sponsors to meet and mingle with members at our trials. We really appreciate their presence and encourage our members to get to know these folks who help NSTRA continue to provide a quality experience. Along those lines, National Vice President, Bo Nutt, recently formed a sponsorship committee of Jayne Abney (OH), Kara Laraway (MI), Katie Jolliff (MW), and Josh Martin (GCT). Feel free to contact one of these committee members or any of the national officers if you have a contact or idea for a new sponsor for NSTRA.

During the Board of Directors meeting in April at the National Trial of Champions, the directors voted to allow an unlimited number of Open/Novice trials a region may hold per year and removed the restriction maximum entry fee of \$30.00 for Amateur trials. Your input and suggestions as general members are always welcome and are truly necessary as the organization continues to evolve. Please chase down your Region Presidents so that you have regular updates and use those Region Presidents as conduits to share your thoughts about NSTRA.

By example, it was suggested that we identify various committees on the national NSTRA website. We liked that idea and adopted it. Watch for the newest option in the drop down tab labeled "About" within the home page tab "Our Team". The ongoing development within the City of Plainfield, Indiana continues and we watch as houses and structures are demolished in the blocks adjacent to our national office location. The City has not re-contacted us about taking possession of our office building, or offered any more concrete information regarding a timeline in which we will have to move. This is a discussion that began with the officers and board of directors several years ago and my best guess is that the NSTRA office will have a new address in the not-too-distant future, but who knows...the wheels of governmental change grind slowly.

As we all move into summer's relaxation, don't forget that the National Endurance Trial and the Dog of the Year Trial are just around the corner. While you are sitting around in the shade sipping that cool beverage or spooling a line on a reel or chasing grandchildren across the back forty, think about keeping those birddogs in shape for hunting and trialing this fall...it'll be here before you know it!

Bill Sumpter

Who are the
NSTRA
Hall of Famers?

Pages 74-77

WELCOME, NEW MEMBERS!!

1. **Where did you hear about NSTRA/what was the appeal of NSTRA for you?**
2. **What breed of dog will you be trialing/what is your background with bird dogs?**
3. **Will your family be a part of the association/attending trials with you?**
4. **Anything else you would like to include?**

Bob (tug) Engman Delora Engman

1. I first learned about NSTRA from watching on YouTube, then looked for trials on the internet and found an event being held in Great Falls.
2. We came out to see the trial, the members were all very friendly and incurring about getting involved.
3. So this year I thought I'm going to give this a shot, we entered an amateur trail and I was hooked.
4. My goal is to become a better handler and trainer so getting involved is a high priority for me. There are so many good people in this game and I've got a lot to learn.

We are running German Shorthair presently and fully enjoy the breed. We come from a Springer Spaniel background but we've been running German Shorthair's for the last 15 years.

Mark Ruff

1. I heard about NSTRA through another member, Colin Fowler. I had just moved to a new area of Central Ohio and was looking for preserves, hunt clubs, or other places I could take my dog, Levi, to train on live birds. I posted my question in one of the Ohio Bird Dog Facebook groups. Colin reached out immediately with a TON of information about various places around the area as well as information about NSTRA. He went above and beyond by answering all my dumb questions and sending me examples of how trials are run, all the various rules involved, and even some strategies for competing. What initially drew me to NSTRA, to be honest, was simply the fact that the upcoming trial seemed like a fun activity for me to do with my dog. The location of the trial was just a few minutes away from my new house so I had no excuse not to go. However, the more I learned about NSTRA, the more I saw that the trials seemed to accomplish a lot of what I felt I didn't get out of the AKC Hunt Tests. The few hunt tests my dog and I participated in were great, and watching him win his Junior Hunter title made me feel like a proud father. But I was still curious to know how his scores compared to the other dogs running that day so that I could see how far away my dog was from being a real "bonafide" hunting dog. NSTRA gives me the opportunity to go out and compete and feel a sense of accomplishment for the training we've done, as well as an understanding of where we need to improve.
2. My dog Levi is a Brittany. He is my first-ever bird dog and has been my partner throughout this learning adventure. As a child, I always gravitated toward books about hunting dogs, like Shiloh and Where the Red Fern Grows. I grew up in the suburbs of Dublin, Ohio, and never had the opportunity to learn to hunt or spend time in nature. But, I always fantasized about the idea of adventuring into the wilderness alongside a pup of my own, working together in the pursuit of game.

When my wife and I decided we were ready for our first pup, my wife was insistent on a Brittany, for no particular reason other than she liked the way they looked. I wasn't fully committed to the idea of hunting with him, as I had never done any sort of hunting before, but was open to casually giving it a try one day.

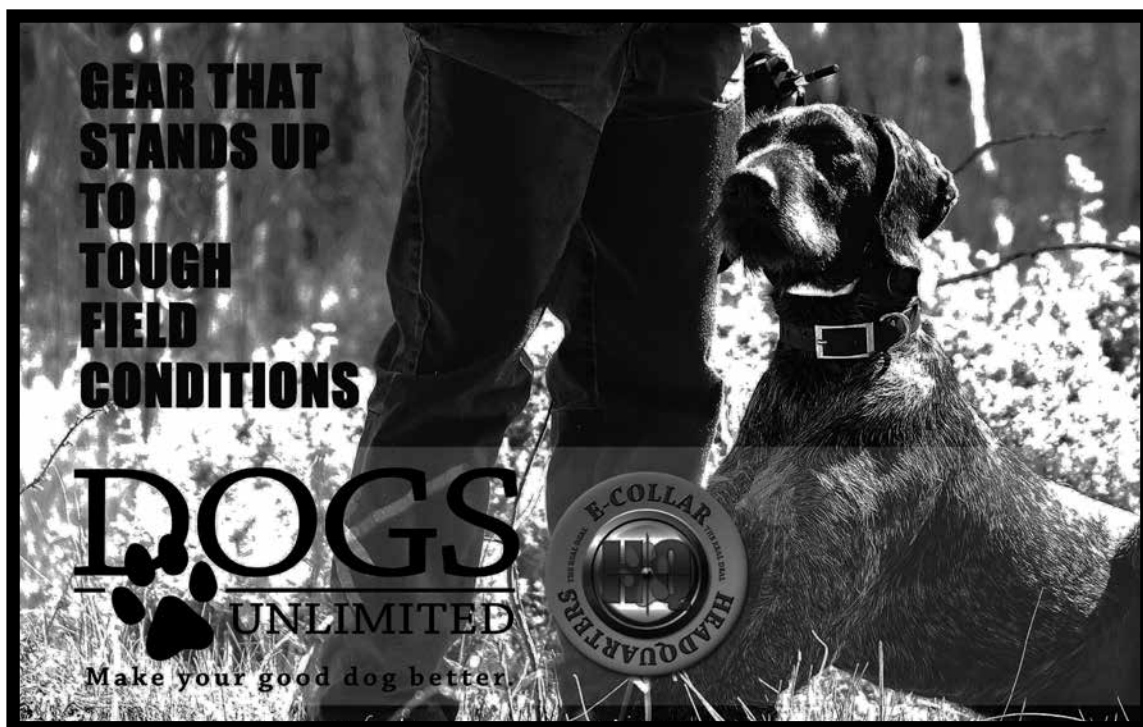

At just a few months old, I could not keep Levi from hunting everything around him. On our walks, or even in the home, he was always on a mission. He stalked and pointed anything from birds, squirrels, bunnies, to bugs.

I figured I needed to let his natural instinct run wild and give him the opportunity to hunt for real. I found a local bird dog trainer, Jim Hamer, who could help teach Levi, but mostly teach me, the ins and outs of upland hunting. I knew nothing going into it. I had never hunted or even fired a shotgun before. But Jim was patient with both me and Levi and worked hard to ensure we were both ready to hit the field in the upcoming season.

Our first bird together was unforgettable. Levi was a COVID puppy and was shy around new people. In our first training session, Levi would not even look at Jim. He wasn't too confident that Levi was capable of being a good bird dog for how skittish he was.

However, once we got to the field, Levi bolted into the grass and locked up tighter than a snare drum on a residual bird. Jim kicked his feet into the grass and a giant rooster shot up into the air. It was the first pheasant both Levi and I had seen and I was very proud at how well he naturally pointed the bird. Jim was impressed and excited to work with him more. I was hooked after that.

3. No one else in my family hunts, however, my mom has always wanted to come out and see Levi hunt. She thinks it's awesome how hard Levi and I have worked together and is very keen on coming out to trial to watch him run.

2023 TRIAL OF CHAMPIONS

NSTRA NATIONAL CHAMPIONSHIP

2023 Trial of Champions and Amateur Trial of Champions

TOC Final 6: Jeremy Cloud, Kara Laraway, Eric Forrester, Jeff Porco, Jaime Laraway, Brandon Ralston

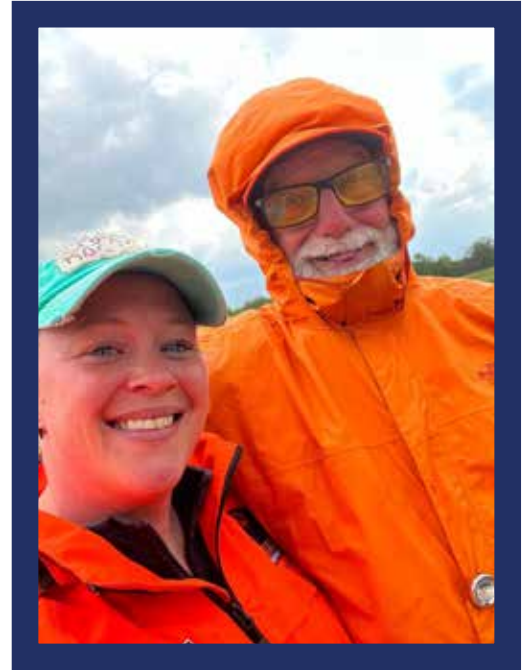

ATOC Final 4, L to R: Greg Wood, Chad Prince, Roger Parient and J.B. Kunza

The Trial's of Champions, both Open and Amateur, may not be the largest of our national trials but they are surely the toughest competitions NSTRA conducts. Every dog entered must be at least a 1X champion to even enter the trial. That means that they are all proven winners in the field trialing game. At the start of the open trial, the entries included 338 championships for an average of 2.96 championships per dog.

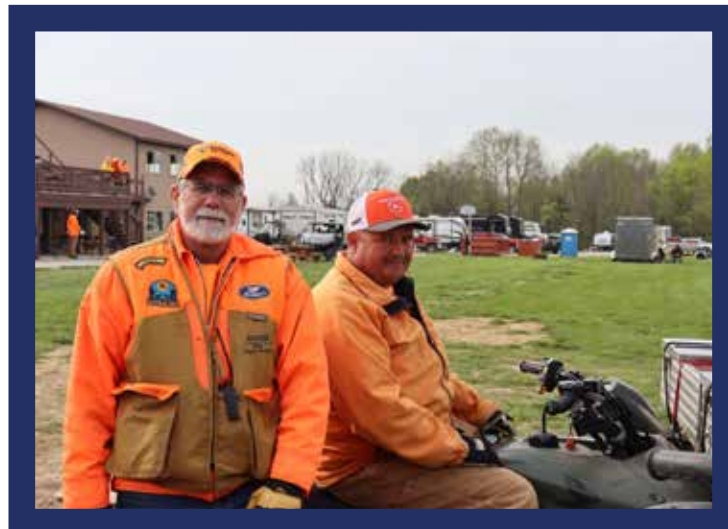

The officials for the Trial of Champions included old and new faces. Judges were Stan Perdue and his partner Bodie Ray from the Georgia Region, John Holder from Wisconsin, and Pete Zeldenrust from Indiana. This would be Pete's first time judging a national event. The bird planter was Lonnie Jones from the Mo-Kan region. Field marshals were Stacy Holder from Wisconsin and Mary Kay Kunza from Illinois. The trial coordinator was Emily Coke from Indiana. This was also my first national trial. Even though I have drawn and set-up many, many nationals from the office, being the chairman was a much more daunting effort than I originally thought. Thankfully, I received great advice from many former chairmen. One of the best pieces of advice I received was "Surround yourself with good officials and your trial will go off without a hitch." Thanks, ST. My officials were the best ever!!! I had absolutely no problems with this trial, and I am so grateful for them.

TOC Judge Stan Perdue

Trial Coordinator, Emily Coke and TOC Judge Bodie Ray

TOC Judges John Holder and Pete Zeldenrust

Each of the entrants received a goody bag with a \$20 gift card from Gun Dog Supply, a hat from Red Haw Supply, a bag of dog food from Purina and a bandana from Moore Etc..

Weather was not an issue for most of the trial. Mornings started off cool and warmed up nicely. We had a little rain one day but not enough to be bothersome. Wednesday morning started off with the Pledge of Allegiance and the National Anthem in front of the clubhouse and we got started about 7:30. Round 1 (Wednesday and Thursday) would take the top 16 scoring dogs from each field.

Wednesday evening, we were treated to a lovely dinner courtesy of the Amo Conservation Bird Dog Club. The meal included pork loin, pulled pork and all the sides and desserts a person could want. Thanks to Kerry Hornaday and her kitchen staff for feeding us well for the week.

The wonderful, hardworking kitchen crew!

We started a little earlier on Thursday morning as we had 16 full braces and were anticipating the evening meal sponsored by NSTRA. John, Pete, and Mary Kay moved to A Field.

After Thursday's running, we were treated to catfish and fried chicken, catered by Jug's, and sponsored by NSTRA. After the banquet, we had a short awards ceremony. We recognized the Conservation Bird Dog Club and the Indiana region for all their help. The national officers were introduced as well as two of the distinguished members present, Marilyn Cunningham and Mikael Mulberry. Sponsors were announced and the placements from Wednesday and Thursday were given their plaques. In addition, John Resa received his painting for the 2022 Top Performance winner, Resa's Mohawk's Jill. During this time, Friday's drawing was completed, and the Amateur portion was hand drawn. Everyone dispersed to get a well-deserved early night's rest.

Bill Sumpter presenting John Resa his portrait by Ross Young for winning the 2022 Top Performance award.

Friday started on time and with the cut now reduced to the top 12 placing dogs, the competition became very serious.

Stan, Bodie and Stacy moved to A Field.

Placements for B Field were as follows: 1st, Cloud's Card Cutting Gus, Jeremy Cloud; 2nd, Southern Zips Gigolo, Jeff Hubbard; 3rd, Boone County Rum, Mychalie Moore; 4th, Berg Brothers Gary, Matthew Bass. Almost everyone returned to their campers or hotels to rest before the big final day. There were a few people sitting around the fires at the campground and I heard something about an extremely competitive euchre game in the clubhouse. Something about bringing in a ringer.....?!

Round 3 on Saturday morning would be 6 braces on both A and B Field where the top 6 scoring dogs would be taken. John and Pete would be on A field and Stan and Bodie would be on B. They would stay there for the next two rounds.

5th Runner-Up

Double R King (King) is an English Pointer owned by Herb Ralston of the Illinois Region and handled by his son Brandon Ralston. His sire is Crosswind Jim, and his dam is Double R Liz. He is a 4X NSTRA CH and a 1X AmCH with 87 points, 52 of which are first place points. In addition to this placement, this 5-year-old also won the 2023 and 2022 Illinois regional and was 3rd in the 2021 Illinois regional. As you can see by the pictures below, this win was an exciting family event!

Brandon Ralston

So Happy! Herb Ralston, Brandon Ralston and Sara Thorne

5th Runner Up
Double R King
"King"
Owner: Herb Ralston
Illinois (Central & Southern)
Regions

Brandon Ralston

4th Runner-Up

Cloud's Card Cutting Gus is owned and handled by Jeremy Cloud from the Arkansas/Louisiana Region. This 7-year-old English Pointer is out of Cloud's Elhew Bayou Buckshot X Big Nose Elhew Kate. He has earned 47 total points with 25 of those being first place points. He won the 2023 Arkansas/Louisiana Regional Championship before placing in his first top 6 of a national trial.

Jeremy Cloud

4th Runner Up

**Cloud's Card Cutting Gus
"Gus"**

Jeremy Cloud- AR Region

Jeremy Cloud

3rd Runner-Up

True Blue's Crosswinded Jolene is owned by Kara and Jamie Laraway and handled by Kara. This is one of the two dogs she handled in the top 6. Jolene is out of Crosswinds Rawhide Kaiser and True Blue's Jersey Girl (look for her later in the article ☐) This fine 4-year-old German Shorthair is a 2X NSTRA Champion and a 1X AmCH with 41 points, 23 of which are first place points. She was 6th at the 2022 Dog of The Year Trial, 3rd at the Michigan Regional and won last year's Amateur Trial of Champions.

Kara Laraway

3rd Runner Up

Kara Laraway

2nd Runner-Up

Porco's Solid Rock Rocky is owned and handled by Jeff Porco from the Ohio Region. A 4-year-old English Setter out of Tomoka's Smokin Big Red is new to the big trial placements. A 1X NSTRA CH and a 1X AmCH with 35 points (22 first place points) Rocky will surely be looking for his next big event!

2nd Runner Up

Jeff Porco

1st Runner-Up

This was Eric's first venture into the final hour of a national trial. Ghost Point Wilson's Magnolia (Moxie) is a 4-year-old German Wirehair out of FC NFC Backwoods Sure Shot Wilson. She is a 1X NSTRA CH and a 1X AmCH with 33 open points, 25 of which are first place points. She placed 3rd in the Indiana Regional in 2022. As you can see by the picture below, getting to the finals can wear on both handler and dog.

Eric Forrester and Moxie before the final hour catching a well needed rest.

Eric Forrester

1st Runner Up

Eric Forrester and Dion Bliss (Red Haw Supply sponsor)

Winner

It was True Blue's Jersey Girl's time in the spotlight. She proved again that she and Kara Laraway are a champion caliber team. Jersey is a 7-year-old German Shorthair out of Crosswind Micro Chip and Bucktowns One Shot Mocha. At the time of this trial, she was a 5X NSTRA CH (now 6) and has 110 points, 67 of which are first place points. She previously placed 3rd in the 2021 UKC Performance trial. If you never met Kara, you would not think of her as the prototype for a championship NSTRA handler, but you would be way wrong! She tirelessly works with her dogs and listens to the expert advice of her mentor, Scott Townsend. She travels all over the country with her cheerful attitude and a smile for everyone. And anyone on Facebook knows she loves her dogs and treats them like royalty! Congratulations Kara! You are a wonderful representative for NSTRA.

*Kara and Jamie Laraway and
Julia Herwehe*

Winner

*Kara Laraway and
custom quail lamp*

Kara Laraway and Ramard supplements

Kara Laraway and Garmin collar

– Kara, Jamie and Jersey with Dakota 283 box

There would be no NSTRA or national trials without the support of our sponsors. Purina for the dog food for each of our entrants and for the top 4 placements. Garmin, Inc. for the electronic collar for the winner and discount cards for 2nd – 4th. Dogs Unlimited for top 4 gift certificates; Gun Dog Supply for top 4 certificates: a Dakota 283 kennel for the winner; Ramard Inc. supplements; Gift Certificates from Red Haw Supply; Pullovers from Moore Etc.; and gift certificates from Aquaseal. We also appreciate the monetary donations from sponsors like Bo Nutt and Jeremy Cloud. NSTRA provided the belt buckles and jackets for the top 4 and a custom made quail

lamp for the winner.

This year's Amateur Trial of Champions started with 52 dogs. In order to run the trial in a beat your brace mate format, we took the 13 brace winners from each field and added the top 3 scoring dogs that didn't beat their brace mates to get to 16 dogs from each field. This would leave 32 dogs for Friday's round 2 and we would continue with the bybm format for the remainder of the trial. Our officials were judges Ariel Alvarez from Florida and newcomer Greg Cole from Kentucky. Heather Remington (IN) was the field marshal and Eli Coke (IN) was the bird planter.

2nd Runner Up

Roger Parient

The final brace was unique in NSTRA. Although very close in score (489 to 501) the highest scoring dog did not win the trial due to not having a back throughout the trial and did not back when a backing situation was set-up after the trial.

1st Runner Up

Prince's Sadie Gigi an English Pointer owned and handled by Chad Prince of the Arkansas/Louisiana Region and out of Prince's Sunny

1st Runner Up

Chad Prince

Hill Butch and Nemaha Bright Sadie. Yes, you read that right and it isn't a typo. See 3rd Runner up info.

Winner

At barely 2 years old, Tomokas Smokin Patch is a male English Setter from the Kentucky Region. He is owned by Jimmy Kirkman and

Winner

Greg Wood and Patch

Greg Wood

Greg Wood.

In addition to the goody bags for each entry, our winner and 1st runner up received additional dog food from Purina; Ramard, Inc., supplements; belt buckles, jackets, and trophies from NSTRA. The winner also received an electronic collar from Garmin; a starting pistol from Gun Dog Supply and a dog box from Dakota 283.

Special thanks goes out to my field marshals who watched everything and sometimes had eyes in the back of their head, my bird handlers who kept the birds in the fields and kept the trial running, and to my judges, who gave us a fair and impartial trial. I want to thank all the members who attended this trial or helped in some way. There were too many to name, but I appreciate all your support.

Is that Kara biting her nails?

Banquet

Banquet

The only picture of Mary Kay Kunza, field marshal, because she took most of the pictures. Also included Kevin Schlarbaum and Brandon Ralston.

Searching.....

My right hand girl! Couldn't have done it without you, Plucky! This is a tough job with all the interruptions, hence the sign!!!

Proud Papa!!

Final 4 TOC, L to R: Kara Laraway, Brandon Ralston, Eric Forrester, Jeff Porco

TOC final 4 and officials, L to R: John Holder, judge; Pete Zeldenrust, judge; Eric Forrester, Kara Laraway, Jeff Porco, Jeremy Cloud, Brandon Ralston, Stacy Holder, field marshal; Lonnie Jones, bird handler

Final 4 ATOC, L to R: Greg Cole, Judge; Roger Parient, J.B. Kunza, Heather Remington, field marshal; Chad Prince, Greg Wood, Ariel Alvarez, Judge

ATOC Top 2, L to R: Ariel Alvarez, Judge; Greg Cole, Judge; Chad Prince, Greg Wood, Eli Coke, Bird handler

Matthew Bass and family

I don't know what she said but it must have been funny!

Russ Taylor

In this where Tina Sterner put on a show to remember? Tina Sterner and Etienne Lavoie

The Spricks, Kevin and Lori

Um girls, what happened? Mychalie Moore and Cheyanne Dunigan

Anyone recognize this stranger? Glad you could make it Dean!

In The Winner's Circle with True Blue's Jersey Girl and Kara Laraway

How did you get started in NSTRA?

It all started with a shorthair named "Moose", who is now 11 years old. Jamie and I got him from a family who referred us to a local bird dog club, Von Weider Kennels. That is where we met Mike Kibby and Jamie bought "Bullet". Mike talked us into trying NSTRA - add 7 bird dogs to the family and here we are!!! *Special thanks to Mike for taking Jersey's cover photo.*

What was the name of your first dog?

I am still running my first "official" NSTRA dog, Jersey Girl!!! (I did run Moose in a couple of braces but we shortly found out that he was a better couch dog)!! What a blessing it has been to accomplish so much with Jersey. There isn't going to be another one like her, (although Jolene sure is trying), I am blessed to have such amazing girls!!

Did you raise Jersey from a puppy?

Yes! Jersey was the only dog who survived out of her litter. As soon as she was born I had a phone call from friend & breeder, Marty Welsh, who gave me the news that Jersey arrived and was absolutely perfect - little did I know what she would become.

Did you train Jersey yourself?

Thadd Townsend broke Jersey out for me. He knew the potential she had from day one, he said "this dog is the real deal, she is a national caliber dog". I didn't even know what that meant, being new to NSTRA. What I did know is that

I would have my hands full with such a talented and strong willed dog, but she was mine and I had to give it a go!

How did you prepare for the TOC Championship?

To prepare for the TOC, we did our normal routine. Running around "Jersey's Field" in the afternoons, followed by a quick dunk in the lake (if it wasn't too cold) and of course we got our fair share of napping in. Any free time we had, we would make the trip over to Crosswind Kennel and work dogs with the best of the best.

Which of the braces during the TOC week was the toughest?

The toughest brace for me is always the first brace. There is always the extra pressure to make the first cut, after that I relax a little and hope to keep the momentum going!

When did you actually think you had a chance at the winning the championship?

I always knew Jersey had it in her to win a National, the question was, "could I get her there?". She ran excellent all spring in training and in trials. I was hopeful going into Champions that we would have a good showing, but it wasn't until the final "TIME" was called that I knew Jersey and I just became National Champions!

Who has helped/influenced you the most in NSTRA?

Of course my husband, Jamie. Together we are our biggest cheerleaders and biggest critics, we hold each other accountable and make each other do better.

Thadd Townsend has put so much time into showing me different ways of training to achieve what I want with my dogs. I'm just glad he's not annoyed with me yet, because I keep coming back for more!!

Scott Townsend I'm pretty sure has implanted his voice in my head while I'm in a brace saying things like: "Kara don't screw this up!". He's taught me the importance of having an overly broke dog (not that mine are, LOL), strategy and calmness that it takes to win a brace. And without knowing, he has showed me how to be humble and learn from each brace.

Both Scott and Thadd have become family to us, on and off the field. Crosswind Kennel is my home away from home, every chance I get I'm making the 2.5 hour drive over there

to work dogs and continue to learn more from them.

My “uncle”, Dion Bliss, for always telling me “I am a winner”. Dion is always there to put a smile on my face and help me look at the bright side of things.

And of course my mom and dad. They have been so supportive in helping Jamie and I chase these wild bird dogs across the country. Without their love and motivation we would not be able to do what we love!

What would you tell someone the best way to prepare for a championship trial?

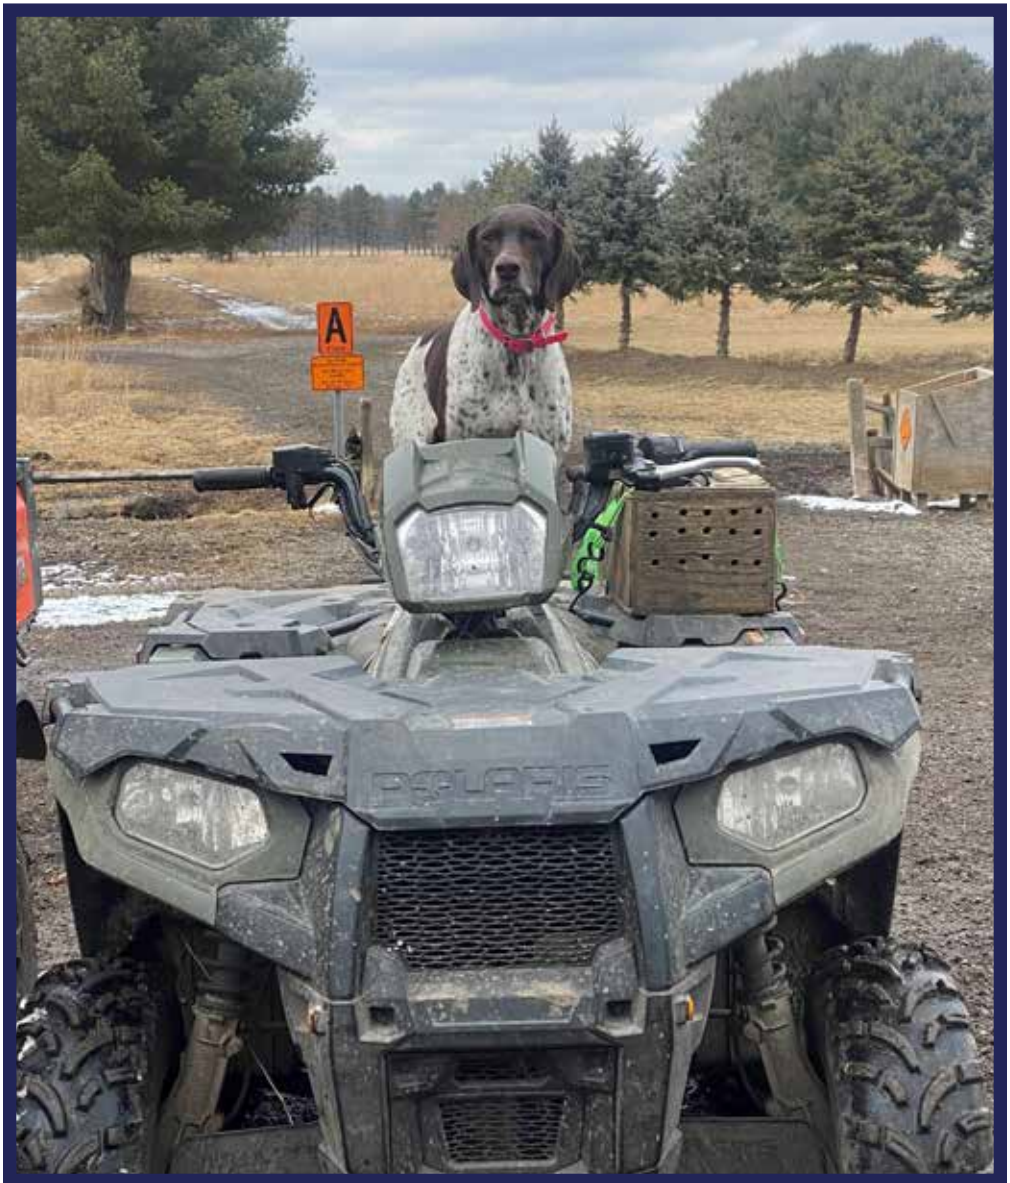

Focus on what is best for you and your dog. Make sure you’re both in excellent condition - physically and mentally. Work hard at becoming the best. Once you get there, relax and enjoy the ride - but when the trial is over, time to get back to training!

Congratulations to all of the handlers and dogs at the 2023 Trial of Champions. A BIG thanks goes out to all of our NSTRA sponsors, your support does not go unnoticed.

I’ll end with one of my favorite quotes:

“It is not the critic who counts; not the man who points out how the strong man stumbles, or where the doer of deeds could have done them better. The credit belongs to the man who is actually in the arena, whose face is marred by dust and sweat and blood; who strives valiantly; who errs, who comes short again and again, because there is no effort without error and shortcoming; but who does actually strive to do the deeds; who knows great enthusiasms, the great devotions; who spends himself in a worthy cause; who at the best knows in the end the triumph of high achievement, and who at the worst,

if he fails, at least fails while daring greatly, so that his place shall never be with those cold and timid souls who neither know victory nor defeat.”
- Theodore Roosevelt

QUILLS, FANGS, AND PORCUPINE TALES

by: **Randy Schultz**

Ace was a big, bold, male Brit. He was the kind of dog bird hunters will have if they live long enough and have enough dogs. Rarely making a mistake, when he was on the ground, almost all the action centered around his nose. Out of sight most of the time, I was thankful for the GPS tracking systems that were just coming on the market. I would take a stroll in the country, planning my route while perusing the habitat. When Ace found the birds, I would get a page.

One day in Montana, hunting a huge alfalfa field for Sharptail Grouse, his pager beeped, and I grabbed the unit off my vest to see where he was. 250 yards straight ahead, over a rise, in the direction of the truck. I picked up the pace through the shin-high green alfalfa. Sure enough, over the rise I could see him in a little ditch- pointed. I had an uneasy feeling as I got within 50 yards of the boy. First, the alfalfa was too thin there. Sharptails not only eat in those fields, but they relax and get shade and relief from the hot September sun. This didn't look right. Second, he was pointed downwind- a sure sign something was off. Just as the alarms bells were going off, I swear I heard a grunt, and Ace jumped back as I yelled to him to "leave it". He came to me but stopped about halfway to rub his eyes and then vomit. Just then the smell hit me. Skunk! Ace got the full monte, delivered at short range, right between the eyes. I never saw the offending critter. I was too busy keeping distance from my bird dog. I didn't want any of that sulfur-based nastiness rubbing off on me. We made it to the truck, and I dosed him with the skunk recipe I always keep on hand made from Hydrogen Peroxide, Baking Soda, and Dawn soap. It took a while before he could see clearly and he stopped his dry heaves, but the smell was gone.

Ace had a beef with porcupines. In North Dakota, we would encounter them in the cattails and tree claims, but they are ubiquitous throughout the country. In Wisconsin and Michigan, I would see them in the very tops of the trees eating the tender bark. One day, a huge specimen ran across the trail I was on, while hunting Ruffed Grouse, and jumped on a huge deciduous tree, and literally ran to the top. Thankfully, my dog was not in the area. But, when he was young, Ace would have encounter after encounter with them. Not so bad that we would go to the vet, but I got good at pulling quills. His second season, he decided he was losing those knife fights, but he would not totally concede. I would hear him barking in the shrubs. I can only think his vocabulary would not be acceptable at church that Sunday. After a minute or so of trash talk, he would saunter out of the brush and be on his way- point made.

Peaches (Julia's Southern Peach) was a big, all-white Setter. In Montana, when she was just a year old, she pointed along the edge of a cut wheat field. She was so staunch I kicked and kicked and walked all around her, far out to nearby. She swore a bird was there! Finally, I touched her on the head and said "OK!" to release her. She took one step, lowered her head, and came up with a small porcupine in her mouth. I set my gun down, yelled for her to drop it, and grabbed her by the collar. When the pain hit, she was glad to spit it out. It was a mess. I knew instantly, this was beyond my ability, so we headed to the nearest vet- 90 miles away. I had the vet's number in my phone (part of my pre-mission planning), and I begged her to see my dog that Sunday afternoon. We arrived at the vet clinic at sunset. It took four of us to pull nearly 400 quills out of the sedated dog. Sometimes a multi-tool and a stick in the mouth can solve the problem; sometimes you need a professional.

Pearl was a smallish, liver-colored, hair-on-fire, female Brit. She was best described as "happy". Even remembering her makes

me smile. One hot afternoon, in Montana, Pearl and I were walking alongside an alfalfa field keeping to the tall grass. We were looking for Sharptail Grouse and Hungarian Partridge. As I hunt behind my dogs, if they are in sight, I watch them nearly all the time. Usually, if they make scent, I'm close to them by the time they point and the pager alerts. I can tell by their body language they are birdy. It's not hard to see it, after the thousands of hours watching bird dogs. Pearl was easy to watch. She didn't cruise the horizon like Ace, and I could keep an eye on her nearly the entire cast. As we worked along the edge, a few yards into the grass, I noticed in passing that Pearl, about 50 yards ahead, veered sharply left, then right and back on course. In retrospect, in the blink of an eye, I saw her, thought it a little strange, and forgot about it. 15 paces later, I stepped over a five-foot-long Prairie Rattler. About halfway over, as I recognized the stick moving through the grass, I may have uttered an adult word as I executed a perfect in-air flip and stuck the landing. Just prior to this trip, all the dogs completed a snake breaking clinic. What I saw Pearl do was a result of that. Pearl veered around the snake and continued. It would have been nice to have her bark, or something, to warn me. Maybe they teach that in the advanced snake breaking class- warning your handler. It woke me up.

One day, Ruby, my orange female Brit, and I were hunting a field full of alfalfa hay bales. In the back of my mind, I heard a noise, and thought, "That sounds like we are in a western movie." I glanced at Ruby and yelled, "Whoa!". She was between me and a hay bale. Up against the hay bale was a very upset Prairie Rattler- coiled, rattling like crazy, and ready to deliver some hate. About five feet separated that snake from my dog, so I slowly walked to Ruby and pulled her collar to me. We had people and dogs all over that field. If we were just passing through, I'd have left him alone. It was one of the few times I killed a snake.

In North Dakota, Ace and I were pheasant hunting. He happened to be working close to me, so I kept an eye on him as he worked the creek bottom. I was high up on the side of the ditch and watched him work the cattails in the bottom and grass along the edges. He got interested in a pile of brush in the grass. He slowed down, tail wagging, and he moved in slowly. Suddenly, I heard what sounded like two Grizzly bears fighting. The growling and snapping were horrendous. Ace exited that pile of brush with haste, looking over his shoulder, headed straight to me. "Shoot 'em, Boss!" he yelled. I looked at the brush and saw a monster go out the other end. It was three feet wide and three inches tall and moving faster than Ace. A Badger! I checked my dog over for bite wounds, but apparently what I heard was a bunch of trash talk. Ace regaled me with a blow by blow, "Yeah, I had him down pretty good, Boss! I was trying to decide whether to kill him on the spot or retrieve him to you. Tricky, too. He got away from me. He sure had a foul mouth on him!" You bet, Ace. He was one, lucky Badger.

Bird dogs get into things and find things. It's what they are supposed to do. I wouldn't want to let the fear of that keep me from enjoying the sport. So, I plan and prepare as much as I can, try to make good decisions about where to hunt, and go have fun.

Randy is a member of the Georgia Region (#8381). This and other stories will be in his next book. Porcupines are covered in approximately 30,000 quills. The quill—is hollow, 2 to 3 inches (5 to 7 centimeters) in length, and lightly attached to the porcupine's skin. Quills are not thrown or shot, as popularly conceived. Because quills are so lightly attached, they come off easily when a predator encounters them. When the quills enter the skin of a predator, they work their way further into the skin at a rate of 1 mm an hour. Porcupines are more likely to flee predators, but if cornered, it will erect its quills, turn its back to the attacker and lash its barbed tail.

How Hot Is Too Hot FREE VERSION

Heatstroke in Dogs

By Harriet Meyers

Published: May 06, 2021, <https://www.akc.org/expert-advice/health/heatstroke-in-dogs> Reprinted with permission.

Key Points

- **Heatstroke can saddle your dog with serious health problems.**
- **The most common cause of heatstroke is confining a dog to an enclosed car.**
- **Use cool, but not ice-cold, water to reduce your dog's body temperature.**

Ceci Stotts, End of Brace

Dogs are notoriously bad at dissipating body heat. Watch for early signs of heatstroke (also known as hyperthermia) in your dog to avoid serious outcomes.

What Is Heatstroke?

When a dog's internal body temperature goes above a normal temperature of 101.5 degrees Fahrenheit (F), this is a fever and is called hyperthermia. When the body temperature is above 105 degrees F, the dog may be suffering from heatstroke.

Dogs have only a couple of ways to cool off—blood vessel expansion and panting. When dogs pant, they evaporate moisture from their tongues, nasal passages, and the lining of their lungs, and this cools them down as air passes over the moist tissue. They also cool off via vasodilation. Blood vessels, especially in the ears and face, expand, bringing overheated blood closer to the surface to cool down.

The bottom surfaces of paws can sweat, but not enough to make a difference. "Heatstroke usually occurs when high ambient temperature overcomes the dog's

ability to dissipate heat. The degree of damage is determined by how high a body temperature is reached and how long the animal is exposed," says Dr. Jerry Klein, Chief Veterinary Officer for the AKC.

Signs to Watch Out For

Heatstroke in dogs is life-threatening and can also result in very serious complications. Recognizing early signs of heatstroke may help you remedy the condition before things get too serious.

Early signs of heatstroke include heavy panting and rapid breathing, excessive drooling, dry mucous membranes, bright red gums and tongue, skin that's hot to the touch, and a higher heart rate. Affected dogs become hyperactive and may have difficulty maintaining balance. As exposure to excessive heat goes on, the dog's condition worsens and includes signs of shock, pale mucous membranes with white or blue gums, a very rapid heart rate, and a drop in blood pressure. The dog hyperventilates, and dehydration becomes more severe. Pupils

dilate, the pulse becomes more irregular, and the dog has muscle tremors. They may become lethargic and unwilling to move, urinate or defecate uncontrollably, collapse, and become comatose.

Why Does Heatstroke Occur?

Heatstroke generally occurs during the hottest part of the year, especially when it is humid. Contributing factors include:

- **Breed:** Heatstroke can be seen in all breeds, but may be more likely in certain breeds, including longhaired and brachycephalic (short-nosed) dogs.
- **Age:** Very young dogs, as well as older dogs, are more susceptible.
- **Physical fitness:** Dogs that are out of shape are vulnerable when they exert a great deal of energy in excessively hot surroundings.
- **Weight:** Overweight and obese dogs are more likely to suffer.
- **Medical disorders:** Hypothyroidism, cardiac disease, and laryngeal paralysis also contribute to heatstroke.
- **Environment:** The most common cause of heatstroke in dogs is confinement in a

closed automobile. The ambient temperature inside a closed car can become dangerously high in a matter of minutes, and the results can be fatal. Other causes of heatstroke can include being confined in an exercise pen without fresh water in direct sunlight and dogs left in cages for an extended period of time with cage dryers unchecked.

- Water: Restricted access to water can cause overheating, as can not drinking enough water.
- Acclimation: Sudden change to a warmer climate can cause heat stress.

How to Treat Heatstroke

Heatstroke therapy involves immediately trying to lower the dog's body temperature. If you notice signs of heatstroke in your dog, it's critical to stop any activity and help your dog cool down by:

Walking or carrying the dog to a well-ventilated, cool area.

Spraying or sponging the dog with cool (not cold) or tepid water, especially on the underside. Do not immerse the animal in cold water.

Using a fan to blow cool air on them.

If you have a rectal thermometer, you should take your dog's temperature. According to Dr. John Hamil, DVM, if the temperature is less than 105 degrees F, you should still consider this an emergency and immediately take your dog to your veterinarian. If the temperature is higher than 105 degrees F, try to cool the dog down, and after a few minutes, retake the temperature. Don't reduce the temperature below 103 degrees F, because the temperature may descend to critical levels.

Bring your dog to your veterinarian as soon as the temperature reaches 103 degrees F or if you are unable to reduce the temperature significantly. Severely affected dogs require fluids, medication, support, and oxygen. Complications may not occur immediately, so it's important to let your veterinarian determine the type of follow-up treatment required.

Prevention Is the Best Medicine

Immediate action and correct treatment are so important because they can mean the difference between a swift and complete recovery and long-term complications. Some veterinarians also advise that once a dog has experienced heatstroke, it is more likely to reoccur.

Our dogs live to please us, and if we ask them to jog or hike or play catch, they'll do it with enthusiasm, even on the hottest days. So it's up to you to keep the weather in mind and limit the time your dog exercises in the heat. Choose cooler times of day for play or training sessions.

Always provide plenty of cool fresh water, shade, and frequent rest periods when it's hot. And never leave your dog in the car. They may miss you, but they'll be better off waiting for you at home.

NSTRA MEMBERS - Important things to remember!

Reminders – check back often!

National trials are the responsibility of the National Officers with input from the Board of Directors and the local co-chairs of national trials. Criteria for entry, which may be subject to change, for the original 5 National Trials is available in the reference section of the Rule Book beginning on page 41, Section 11. If a particular national trial is subject to changes in the entry criteria, there will be notice provided on the official entry form, in the magazine, on the national website, and/or by email if available.

To enter a national trial, you may submit a hard copy official entry form and payment, OR you may scan and email an official entry form with payment information, OR you may send by facsimile and official entry form with payment information, OR you may enter and pay on-line on the website. NO EXCEPTIONS.

Please note that additional new national trials may be added from time to time and do not yet appear in the current Rule Book. Please contact your National Officer Representative or the National Office staff for additional information regarding such trials. The current list of National Trials is as follows:

QUAIL FOREVER, formerly known as Quail Invitational. This is a revolving trial generally held in February.

TRIAL OF CHAMPIONS. This trial is held in Amo, Indiana, in April.

NATIONAL AMATEUR TRIAL OF CHAMPIONS. This trial is held in Amo, Indiana, in April.

UKC PERFORMANCE TRIAL. This trial is a revolving trial generally held in June.

PURINA ENDURANCE CLASSIC. This is revolving trial generally held in September:

DOG OF THE YEAR. This trial is held in Amo, Indiana, in October.

TOP PERFORMANCE AWARD:

To be eligible:

*Dogs must have at least 20 open points accumulated in weekend trials between June 1 through May 31 of the applicable year. Once a dog is eligible, a schedule of scoring is applied based on the results at regional elimination trials and National Trials

*The Performance Trial will be the beginning national trial each year, even if it ends prior to June 1 in order to keep the number of national trials the same each year.

*The Regional Elimination trial results used in calculating Top Performance Awards is the regularly scheduled regional elimination championship in the qualifying year/season (only one regional can count per year). Regionals scheduled or rescheduled to be held after June 1 will apply to the previous year. Each regional elimination will have a point value of 600 points. The value will drop 25 points per placement until the last dog or points run out (1 – 600, 2 – 575, 3 – 550, etc.). The placement for the regional eliminations is determined by the score of the last round in which the dog ran. In addition, 100 points will be awarded to the Champion, 75 for the second-place dog, 50 for the third and 25 for fourth.

*The National Trials results are calculated as follows: A dog must place in the top 32 dogs to receive a qualifying score from that trial. Each national trial will have a point value of 800 points. The value will drop 25 points per placement throughout the Saturday cut (1 – 800, 2 – 775, 3 – 750, etc.). The placement for the national trial is determined by the score of the last round in which the dog ran. In addition, 100 bonus points will be awarded to the Champion, 75 for second place, 50 for third and 25 for fourth.

HALL OF FAME NOMINATIONS:

Hall of Fame nominations will be accepted in a rolling calendar throughout the year. Send these nominations to the nation office, or to a national officer no later than March 31 of the year in which a dog is to be considered. Nominations of dogs to the NSTRA Hall of Fame are NOT “carried over” to following years. Plainly stated, a dog that does not get elected to the Hall of Fame in the year nominated must be re-submitted in order to be considered for election. The National Officers, in concert with the Board of Directors, make selections to the Hall of Fame each April.

TRIAL SCHEDULES:

Fall/winter trial schedules are due in the office by May 1. Spring/summer trial schedules are due in the office by Nov. 1. All trials must be published on the website 4 weeks prior to their running.

SANCTION FEES:

Trial sanction fees are required BEFORE a trial packet is mailed and before a trial may be “approved” in the system. Please pay all sanction fees at least 4 weeks prior to your trial date to ensure prompt mailing of the packet and to ensure that the trial may be drawn in a timely manner.

TRIAL REPORTS:

Trial reports and results should be entered into the trial draw system as soon as possible after a trial and no later than 10 days after the trial date. Overall results will not be approved until the reporting is complete. First place points and championships will not be confirmed or awarded until the reporting is complete.

HOME REGION:

Members requesting a change of Home Region must do so, in writing, through the National Office between the dates of October 1 and January 1.

*Exception: A member who permanently relocates to within the boundaries of a Region, other than their Home Region, may make written application to the NSTRA office at any time to request a change in their Home Region.

ASSOCIATE MEMBERSHIPS:

Associate memberships are available to members’ spouses and children 18 years and under, still living at home. There must be at least one regular paid membership in the household to qualify. Associate members have the same rights as regular members with respect to participating in field trials (e.g., owning dogs, handling dogs, judging, bird planting, etc.). Associate member may not vote in any regional or national elections including rule or by-law changes, they cannot hold an office, and they do not receive a magazine.

RULE CHANGES:

Proposed rule changes or new additions shall be submitted sixty (60) days prior to the first day of the Trial of Champions and/or the Dog of the Year trial.

CONSTITUTION/BY-LAW CHANGES:

All proposed amendments to the Constitution and By-laws shall be submitted to the National Officers at least ninety (90) days prior to the first day of the Trial of Champions and/or the Dog of the Year trial.

(continued on next page)

REGION HIGH POINT:

Points earned in the qualifying rounds of a Regional Elimination or a Championship trial DO count towards the region's high point competition. Points earned in the finals of above trials DO NOT count towards the region's high point.

OWNERSHIP CHANGE:

Once a dog takes a NSTRA placement, any subsequent ownership changes must be sent to the NSTRA office. Please send a copy of new registration papers with the new owners' names to the office. The date of transfer will be the date shown on the registration papers.

UNREGISTERED DOGS:

As of June 1st a dog cannot run in a NSTRA trial without a system-generated dog profile or record. A trial coordinator cannot create the record. National staff or officers can only create the record once registration papers are received in the NSTRA office. In addition, there remain many "unapproved" dogs in the system. Unapproved dogs shall not be entered to run in trials until proper paperwork is received and appropriate action to create the record is completed. This can either be submitted by the owner or the trial chairman. We will accept copies by fax (317-839-4197), e-mail (office@nstra.org), or a photocopy by regular mail.

NSTRA DISTINGUISHED MEMBERS:

The NSTRA Distinguished Members award honors those extraordinary men and women whose contributions and achievements significantly helped develop, or continued to improve, the National Shoot to Retrieve Field Trial Association, Inc. This award will be presented annually at the Dog of the Year banquet. Nominations may be submitted at any time to the staff at the national office, to a National Officer, or to the current chair of the Distinguished Members Committee. A short description of the individual and their contributions to NSTRA should be sent to the national office. A picture of the individual should be included, if available. Contact the NSTRA office for a list of criteria. The committee will review all Nominations and verify contributions. Decisions will be made not only by the information submitted but by any other information collected. The committee will make their decision by the April Board of Directors' meeting. A permanent plaque will be located at the NSTRA office with a smaller plaque awarded to the individual or their family if deceased.

NSTRA MEMBERSHIP –

<http://nstra.org/forms/htm>

NSTRA has 31 regions across 48 states and Central Canada. Please visit the "REGIONS" page to determine which region is the nearest to you.

Should you need assistance, please contact the NSTRA office:

By telephone: 317-839-4059;

by email: office@nstra.org.

You must be a member of NSTRA in order to participate in NSTRA sanctioned field trials.

NSTRA TRIAL DATES and QUALIFYING DATES

Quail Forever- Seneca, South Carolina February 22-25, 2023
Nov 1, 2021 through October 31, 2022

Trial of Champions. Amo, Indiana April 26-29, 2023
Championship and is at least a 1x champion by February 1 of the current year or the dog can be paid standby for this trial by achieving their championship between February 1, 2022 to February 1, 2023. A dog can be a paid standby for this trial by achieving their Championship between Feb 1, 2023 and March 31, 2023.

Amateur Trial of Champions. Amo, Indiana April 26-29
Amateur Championship by February 1, 2023, and is NOT an open champion. A dog can be paid standby for this trial by achieving their Amateur Championship between February 1, 2023 and March 31, 2023

2023 UKC Performance classic. Waverly, Nebraska, May 31-June 3, 2023
Points earned from April 1, 2022 through March 31, 2023. Dogs will be eligible to enter the trial based on open points earned from weekend trials only. All open points will count except those points earned during qualifying and final rounds of the National Championship and Regional Championship Trials.

Purina Endurance Classic. Osceola, Iowa, September 6-9, 2023
Entry into this trial is based on all open points earned within a dog's home region and placement points earned from qualifying rounds of a National Trial during the period of June 1, 2022 through May 31, 2023.

Dog of the Year. Amo, Indiana, October 25-28, 2023

2023 OFFICIAL ENTRY FORM FOR **DOG OF THE YEAR TRIAL**

WED-SAT	DATE October 25-28	LOCATION Amo, IN	ENTRY FEE \$175.00*
---------	------------------------------	----------------------------	-------------------------------

*Dog's Registered Name: _____ Number: _____

Region: _____

Owner: _____ NSTRA # _____

Address: _____

City: _____ State: _____ Zip: _____ Phone: () _____

Email Address (for official notifications): _____

Handler: _____ NSTRA # _____

CC# _____ Exp Date: _____ CVV _____

Entry Deadline: Entries must be received by September 11, 2023

Four easy ways to enter:

- 1) Enter online at www.nstra.org/trial-registration
OR
- 2) E-mail your entry form to office@nstra.org with payment information
OR
- 3) Fax entries to 317-839-4197
OR
- 4) Mail entry & fee to NSTRA, 25 W. Marion St, Danville, IN 46122.
Only one check or money order per entry.

- Entries taken by mail, fax, or email only on: Official National Trial Entry Form.
- No telephone entries or after-hours messages will be accepted.
- All payments will be processed upon receipt.
- Late Entry Deadline (Additional \$25.00): Tuesday, October 24, 2023
- Handlers: The handler drawn to run the dog must be the handler to run the dog if they are present at the trial. Substitutions can only be made in the case of illness or emergency subject to approval of the trial chairman.

NSTRA AND NSTRA CLUBS ARE NOT RESPONSIBLE FOR ACCIDENTS DURING TRIALS.

NSTRA OFFICE IS NOT RESPONSIBLE FOR NON-RECEIPT OF ENTRIES. VERIFY ENTRIES ONLINE AT WWW.NSTRA.ORG.

GUN DOGS

by Chris Robinson

I've been living with dogs for more years than I care to tally. Since my mid-teens, almost all of them have been Chesapeake Bay Retrievers, the "almost" qualifier needed because a couple of Brittanys have also been part of the mix. They have, thankfully, been long-lived and not prone to fatal accidents.

But, even though the dogs that have occupied my kennels along with home and hearth have always been just these two breeds, I really love all dogs—large or small, tall or short, long-haired or wash 'n' wear, brave or wimpy, working stiffs or pampered show dogs, champions or pets. For the most part, dogs have responded to that love by liking me. At the vet clinic or my dog's trainer's kennel, the dogs always seem to instinctively know that I'm good for a pet, an ear, tail, head or chin scratch; and the kind of soft, albeit meaningless—unless I throw in a good girl/boy or two—words that all dogs seem to love. Given the opportunity, they seem drawn to me like some sort of magnetic force was present.

I've even had law enforcement and military dogs want to snuggle at our first meeting, to the complete surprise and frequent disbelief of their handlers. That included a particularly aloof Belgian Malinois who, his ex-U.S. Navy SEAL owner said as he watched the dog climb into my lap and cover

my face with kisses, had NEVER cozied up to anyone until after they had been in his home several times and even then he retained much of his reserved demeanor. It was for certain that the dog had never given the rather wild display of affection that I was receiving to a total stranger.

But, much as I love all dogs, I have to confess that I love gun dogs the most. That's because they like what I like which is to poke around places where game birds are likely to be found, whether that's the vast wheat fields of the Canadian prairies or a five acre Minnesota marsh, or the milo fields and conservation reserve program fields of Nebraska or, especially, the two shooting preserves where we frequently hunt because, unlike the wild areas, they know there will ALWAYS be birds on the preserves.

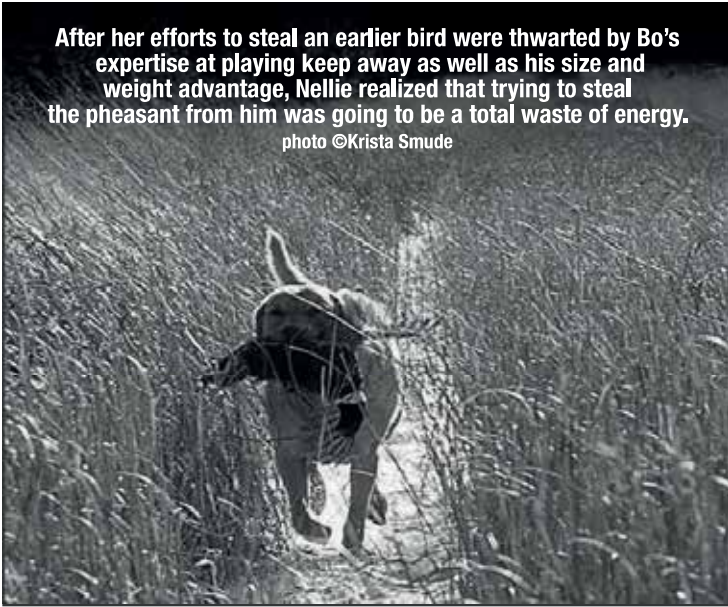

I've known many gun dogs—mine and those belonging to others—as well as observing many, many more during the fifteen years I judged all three types of hunt tests. Some have been absolutely brilliant, a whole lot more have been good hunting dogs and a few have been complete bozos whose witlessness was mitigated by their being lovable fools. I've also known a few people who deserved better dogs and many more dogs who deserved better owners. I've learned how easy

For many sighthound breeds, Beagles, Bassets and PBGVs, rabbits and hares are the preferred quarry.

After her efforts to steal an earlier bird were thwarted by Bo's expertise at playing keep away as well as his size and weight advantage, Nellie realized that trying to steal the pheasant from him was going to be a total waste of energy.

photo ©Krista Smude

it is to blame the dog for our own shortcomings as trainers and how shamelessly we take credit for things that the dog does—credit that rightly belongs to the dog. But, mainly I've known just how damned good it feels to watch a really good gun dog do the job he or she loves, and not only do it well but sometimes do it spectacularly.

In the brains of many breeds there is an irresistible urge to chase down prey. The vermin hunting terriers, for example, like chasing mice, rats and chipmunks; many of the sighthounds, Beagles, Bassets and PBGVs prefer rabbits and hares, the coonhound breeds love hunting racoons although some are also excellent coyote hunters as well, and the sight of a cat seems to pump up the adrenalin in virtually all of them. Hunters have channeled this instinct in all the sporting breeds—except the Lagotto Romagnolo—as well as some Standard and Miniature Poodles and Airedales into the intense pursuit of game birds. Sometimes this intense pursuit reaches the level of ridiculousness.

I recall one such ridiculous instance a couple of years ago on a late November chukar hunt. It was one of those a little bit foggy, sometimes misty mornings that are not ideal weather for chukar hunting, or any other upland bird hunting for that matter. But, I needed a few more birds for the annual game dinner I do for friends who can no longer hunt for various reasons, or who never have hunted but like the taste of wild game. In my part of the country, at any time after mid-November, a massive snowstorm may leave huge drifts and enough snow on the level to make upland bird hunting an ordeal I'm no longer willing to endure. There was already enough snow on the ground to remind me that the opportunities to fill the section of the freezer reserved for partridge were becoming limited.

By the time we reached the shooting preserve, the occasional mist had become a lot less occasional and was frequently accom-

panied by icy shards of sleet. Bo, my Chesapeake, and Nellie, my brother's Chessie, came out of the truck bouncing and kicking up snow as they frolicked around, despite the deteriorating conditions, in anticipation of the bird hunting that they knew was awaiting them. My initial thought was that they either should have opted to stay in the truck or, earlier, refused to even leave the warmth of our respective houses but good Chessies aren't built that way. There's a reason why they were the breed of choice for the old-time market hunters on the chilly waters of Chesapeake Bay.

By the time we got organized—it always seems to take twice as much time to get the shotguns out, find the right shells and shrug into the game vest when the conditions are lousy as it does in bluebird weather—the half-rain, half-ice shards had been joined by a bone-chilling northeast wind that apparently was hatched somewhere north of Hudson Bay and picked up steam as it rolled south across Lake Superior.

“What the hell are we doing out here today,” I asked Bo who looked at me like I was as crazy—as I suspected I was—to be hunting in this weather. Everything about him, his attitude, his posture answered, “Why, to find birds, of course, you dimwit.”

The frost-brittled milo in the first field we hunted turned out to be a dry hole, the birds having sensibly retreated to better shelter. But, as we stood with our backs to the end of the field and the wind, deciding where to go next, Nellie made a pheasant rooster flush, cackling his fury at being roused from his cozy nest in a thick clump of weeds on the end of the field. I was the only one in position to take the shot and it was a snap shot at that but luckily it was, more or less, on target. The rooster folded but it was not a clean kill as the bird took off running the second it hit the ground. This made Nellie's day even better as there's nothing a gun dog loves more than chasing a crippled bird.

Bo pranced in with his prize, having convinced Nellie, at least for one day, to go and sin no more.

photo ©Krista Smude

Nellie viewed any bird on the ground, in the water or in another dog's mouth as rightfully hers until she encountered a master at the game of keep-away.

photo ©Krista Smude

Hunters have channeled the instinct to pursue prey in all the sporting breeds, except the Lagotto Romagnolo, as well as some Standard and Miniature Poodles and Airedales into the intense pursuit of game birds. This bird hunting Airedale is Mike owned by Chris Halvorson.

photo ©Chris Halvorson

While we had one bird in the truck, it wasn't the kind I needed so we moved off toward another, thicker milo field. But, on the way, the dogs dove into a strip of evergreen trees and began flushing the chukars that had found the tree line offered better protection from the elements than a milo field. The dogs also clearly found it more comfortable in the tree line as did the hunters, but that comfort didn't extend to the hunter on the windward side who had to be there or all the birds would have flushed and flown in that unguarded direction. Sadly, the hunter on the windy side happened to be me as I lost the coin toss. The only aspect that made that position even close to bearable was that the wind was now, more or less, on the back of my left shoulder.

One chukar apparently goofed and selected a spot too near the windward side of the tree line. So, when Bo closed in on it and the bird jumped into the wind to get airborne, it came out my side of the tree line and quickly hooked away but not quickly enough as, nearly frozen though I was, I managed to move just fast enough to swing through the bird, almost too far as it turned out since only a single pellet hit the bird in its head.

Bo came barreling out of the tree line and snatched up the bird. Victorious at having both found the bird and fetched it, as he headed back toward me, he was joined immediately by Nellie, a notorious bird stealer who viewed any bird on the ground, in the water or another dog's mouth as rightfully hers; and she was doing her level best to take the bird away from him. While he would ordinarily have let her have it, this time was to prove the exception to the usual male/female dog relationship thing.

A master of the game of keep-away, each of Nellie's moves to get the bird was countered by an evasive act by Bo who also used his size and weight advantage to thwart her, much to her total frustration. Despite having numb lips and equally stiff facial muscles, I had to laugh watching the dog act in front of me, and when Bo finally successfully evaded Nellie long enough to deliver the bird to me, I cheered his efforts. Having completed his mission,

Bo looked at Nellie and, if dogs can smirk, I swear that's exactly what he did.

By the time we reached the end of the tree line, snow had joined the weather mix. However, this was no ordinary snowfall but rather one of those that blows at you horizontally where one side of your body can accumulate a half-inch of snow before the other side even gets a flake on it. Having a half dozen chukars plus a pheasant in the bag, I made a very strongly worded—more than a bit salty—suggestion that we pack it in for the day, having reached an age where there are clear limits to the amount of discomfort I will tolerate to please the palates of others, good friends though they are.

On the way back to the truck, we walked along the leeward side of the tree line although the rain/sleet/snow combination had momentarily let up and a few weak rays of sunshine were peeking through the clouds. During the trek back to the truck, at the edge of a switchgrass field, Bo roused another pheasant rooster. While it was a long and difficult shot, my brother rolled the bird and Bo retrieved it.

Nellie had been snooping in the tree line again but when she heard the shot, she came flying out of the trees like she'd been launched by a catapult. She spotted Bo coming in with the pheasant, ran a few steps toward him and then suddenly, like a reining horse on a slide stop, came to an abrupt halt apparently reminded, for this day anyway, that there can be consequences for trying to violate the Eighth Commandment. That, at minimum, trying to steal a bird from him was going to be a total waste of energy so she left him to prance in with his "prize."

As I watched this scene play out, I was reminded of something my late, long-time pal, fellow bird hunter and retired FBI agent, Ray Gammon, once said describing the reaction of a miscreant he had recently arrested, "Sometimes an experience is so powerful that a person gets religion, at least for that moment, in unusual ways!" The same, apparently, can be said for bird-stealing dogs.

The American Brittany

The American Brittany Club is a member club of the American Kennel Club and the recognized breed sponsor by the American Field. The Club is comprised of many regional Brittany Clubs located from coast to coast. Most of the Clubs hold field trials, conformation shows and hunt test events. The clubs also hold meetings, fun trials, training sessions and other events of interest to the Brittany owner. Membership in the American Brittany Club entitles you to a monthly issue of the American Brittany Magazine. This publication which began in 1949 keeps you abreast of what is happening in the Brittany world. The magazine contains reports of field trials, shows, hunt test and agility/obedience events, club activities and articles on the care and training of the Brittany. The magazine also has articles on hunting and general interest as well as listings of kennels, stud dogs and trainers.

YEARLY MEMBERSHIP IS \$50.

Born to "Hunt to Retrieve"

by: Olivia Harvey

Ever wonder how many breeds there are who will hunt with you, withstand the sounds of shotguns going off, then retrieve the prey for you, without eating it first?

I took a peek at the breeds registered with NSTRA to see how many breeds have been listed as NSTRA registered dogs, and I was excited to discover that there were some breeds that had never heard of.

Here are the breeds:

Blue Picardy Spaniel
Braque D'Augvergine
Braque Du Bourbonals
Braque Fr Gascogne
Braque Fr Pyrenees
Brittany
Drathaar
English Pointer
English Setter
French Spaniel
German Long Haired Pointer
German Shorthaired Pointer
German Wirehaired Pointer
Gordon Setter
Wirehaired Pointing Griffon
Irish Setter

Large Munsterlander
Llewelin Setter
Other
Pudel Pointer
Small Munsterlander
Vizsla
Weimaraner
Wirehaired Vizsla

I thought it might be of interest to learn more about the "Gun Dogs."

The United Kennel Club divides things up a bit differently. The Fourth Group is designated for GUN DOG Breeds and currently registers 61 breeds.

Many Gun Dog breeds were already in use by hunters before the advent of hunting with firearms. Originally used to hunt a variety of game types, today's Gun Dogs are primarily used to hunt birds. The dogs in this Group can be roughly subdivided into four often overlapping categories, based on their primary usage: Retrievers, Pointers, Setters and Flushing Spaniels.

The earliest Retrievers were the water dogs, characterized by shaggy, sometimes curly coats, and probably descended from

crosses between the shaggy herding dogs of the East and dogs used for hunting. The land retrievers, developed later and primarily of British origin, have heavier bodies, wider heads, and shorter, dense, water-resistant coats.

The many breeds of Pointers, developed to identify the location of birds with a distinctive "pointing" stance, are descendants of the scenthounds. Pointers display their ancestors' strong hunting drive and scenting abilities.

Early Setters displayed a trait of slightly crouching or "setting" upon locating game. This trait enabled falconers and hunters with nets to get closer to the birds when stalking their prey. Setters are characterized by fringes of hair on the ear, legs, and tail.

Flushing Spaniels are the descendants of Setters with the added ability of flushing out the game. The affectionate personality and attractive appearance of the Spaniel breeds led to the development of diminutive Spaniel breeds used exclusively as companions.

MEET THE GUN DOGS

In the coming issues of our magazine (as space permits), we will be visiting many of these extraordinary breeds.

MEET: THE AMERICAN WATER SPANIEL

HISTORY

The breed is "American made." It was developed in the Wolf and Fox River Valley region of East-Central Wisconsin. The rivers and large lakes they feed - Poygan, Butte des Morts and Winnebago - provided a waterfowl gunner's paradise in the late 1800's. They required a sturdy

little dog that could shake off the cold and work marsh cover, yet could fit into a small canoe or skiff. It was for this purpose the breed was developed. Some say the breed developed from crosses of the now extinct English Water Spaniel, Irish Water Spaniel and the Flat Coated Retriever. On February 8, 1920, the UKC registered the first American Water Spaniel, "Curly Pfeifer", named after Dr. F.J. Pfeifer, the first person to register the breed. By 1924, his kennel had developed the breed to the level of having three generations of his line of dogs and as a result was given the Purple Ribbon status. (At least three generations of the ancestors registered with UKC).

The American Water Spaniel was recognized by the United Kennel Club in 1920.

GENERAL APPEARANCE

The American Water Spaniel is a moderate-sized hunting dog, weighs from 25 to 45 pounds, is from 15 to 18 inches high at the withers, and is compact. It has a curly coat that is dark brown to liver in color, with a moderate length, rocker shaped, hair covered-tail.

CHARACTERISTICS

A sturdy little dog, with a good nose and a fondness for water, he is a busy worker, both eager to please and easily trained.

SKULL

Rather broad and full, moderate in length. Stop moderately defined. Forehead covered with short smooth hair and without tuft or topknot.

MUZZLE

Of medium length and square, with no inclination towards snipiness.

TEETH

A full complement of strong, straight, well shaped, white teeth meet in a bite that is neither undershot nor overshot.

EYES

Well set apart, and somewhat round in shape. Color, hazel or brown, or of dark color to harmonize with the coat.

Disqualification: Yellow (lemon) eyes.

NOSE

Sufficiently wide and with well-developed nostrils to insure good scenting power.

EARS

Long, wide and lobular, set slightly above the level of the eye. Leather extending to end of nose and well-covered with close curls.

NECK

Round and of medium length, strong and muscular, free of throatiness, set to carry head with dignity; arched, but not accentuated.

FOREQUARTERS

Shoulders sloping, clean and muscular.

FORELEGS

Medium length, powerful, well boned and reasonably straight. Dewclaws may be present.

BODY

General outline gives the impression of a symmetrical relationship of parts. Body is well-developed, sturdily constructed, but not too compactly coupled. Brisket deep, but not excessively broad. Well-sprung ribs. Strong loins slightly arched, without a tucked-up appearance.

HINDQUARTERS

HIND LEGS

Muscular, with suitably bent stifles and strong, well let down hocks that are rounded, not sharp or pointed in shape.

FEET

Feet in proportion with size of dog. Toes closely coupled, well-padded and webbed.

TAIL

Is of moderate length, slightly curved in a rocker shape. Carried below the level of the back, tapered and covered with hair to tip. Action is lively.

Faults: Rat or shaved tailed.

COAT

The coat should be closely curled or have marcel effect and should be of sufficient

density (and texture) to be protection against the elements.

Faults: Coat too straight, soft, coarse, fine or tightly kinked.

COLOR

Solid liver or dark chocolate. A little white on toes or chest is permissible.

Disqualification: Albinism.

HEIGHT & WEIGHT

Height ranges from 15 to 18 inches for either sex. Males, 28 to 45 pounds; females, 25 to 40 pounds.

GAIT

Well-balanced, with matching front reach and rear drive. No tendency for legs to cross over or interfere with one another. Hind legs move nearly parallel to front legs when viewed from behind.

DISQUALIFICATIONS

(A dog with a Disqualification must not be considered for placement in a conformation event, and must be reported to UKC.)

Unilateral or bilateral cryptorchid.

Viciousness or extreme shyness.

Albinism. Yellow (lemon) eyes.

MEET: THE BARBET

HISTORY

The Barbet is a very old French breed, being the ancestor of numerous modern breeds and types, such as the Poodle, the griffons, the Newfoundland and other water dogs, and the French sheepdog of the Brie region.

The breed is a water dog, traditionally used as hunter's assistant or as a sailor's companion for fetching at sea. The female

gave her name to the Barquette, the cannon posted, in the past, on the bow of ships.

The Barbet was also used as a shepherd dog, for driving flocks, and as a companion dog. This is truly a versatile, multi-purpose breed.

The Barbet was recognized by the United Kennel Club on January 1, 1995.

GENERAL APPEARANCE

The Barbet is a medium-sized, balanced dog, with characteristic thick, woolly, fleecy coat, assuring effective protection against cold and humidity. The length of the body, measured from the point of the shoulder to the point of the buttocks, is slightly more than the height at the withers. There is a characteristic beard, which gave the breed its name.

CHARACTERISTICS

The Barbet is not aggressive or timid, being docile and very devoted to its master. They are very sociable and fond of the water.

The Barbet is essentially a water dog, used for wild fowling. Nevertheless, it has several abilities of a pointer/setter without being a true setter. The breed has no fear of the cold, going into water in all types of weather.

Disqualifications: Viciousness or extreme shyness. Unilateral or bilateral cryptorchid.

HEAD AND SKULL

The head is entirely covered with long hair.

Fault: Fine, narrow head.

SKULL

Round and broad. The stop is pronounced. The forehead is large and short.

MUZZLE

The muzzle is very square and slightly shorter than the skull. The lips are thick and well-pigmented, the mucous membranes being black or brown. The jaws are of equal length.

TEETH

A full complement of strong, well-developed, white teeth meet in a scissors bite.

EYES

Round in shape, preferably dark brown in color. Eye rims are black or brown.

Fault: Light eyes.

Eliminating Fault: Wry mouth.

Disqualifications: Undershot bite. Overshot bite.

EARS

Low set, at eye level or slightly lower.

Long, flat and broad. Covered with long, hanging hair that may form strands/cords.

When brought together in front of the nose, the ears (including the hair) reach at least two inches (5 cm.) beyond it. The ear cartilage reaches further than the corner of the mouth.

Faults: Ears set high (higher than eye level). Thin ears. Short ears. Narrow ears.

NOSE

Broad, with well-opened nostrils. Black or brown in color, depending on the color of the coat.

NECK

Short and strong.

Fault: Long, thin neck.

FOREQUARTERS

Strong and muscular, with sloping shoulders.

Fault: Straight shoulders.

FORELEGS

The upper arm is strong and muscular.

The lower arm is straight and well-boned, completely covered with long hair.

Faults: Fine bone. Fringed limbs. Lack of muscle.

BODY

Broad, well-developed chest, reaching to the elbow. Solid back with a well-sustained topline. Loin is arched, short and strong. Seen from the side, the croup of round, in smooth continuation of the loin. Rounded ribcage, but not barrel-like.

Faults: Dip in topline. Long, weak loin. Straight croup. Narrow chest.

HINDQUARTERS

Well-developed and muscular, with good angulation. Rear pasterns are upright.

HIND LEGS

Hocks set low and well-angulated.

Faults: Lack of thigh muscle. No bend in the stifle. Lack of angulation in hock. Fringed limbs (spaniel-type). Dewclaws.

FEET

The broad, round feet are covered with

hair.

Faults: Fine, narrow feet. Bare-pawed/uncovered (lack of hair).

TAIL

Set on low. Carried slightly raised. Carried above the horizontal when the dog is in action. Forms a slight hook at the tip.

Faults: Tail set on high. Curved over the back. Lying on the crop or loin. Tail naturally absent. Tail too short.

COAT & SKIN

The thick hair, covering the body, is an essential characteristic of the breed.

The coat is long, woolly, wavy, and curly, covering the whole body in a natural state. If not regularly brushed, the hair can form into cords.

The hair on the head must fall down as far as the nose, and hide the eyes. The beard is long and thick. The mustache overlays the entire nose, and is very thick.

Traditionally, the Barbet has been clipped to accommodate their work and lifestyle, therefore all clips are acceptable.

The skin is thick.

Faults: Thin, delicate skin.

Eliminating Fault: Short, harsh coat.

COLOR

Solid black, grey, brown, fawn, pale fawn, white, or more or less pied. All shades/hues of red-fawn and pale fawn are acceptable. Preferably, the entire body should be the same, uniform shade.

Disqualification: Albinism.

Eliminating Fault: Any color other than those mentioned.

HEIGHT

Males - height ranges from 22¾ to 25½ inches, with a tolerance of one-half of an inch either way.

Females - height ranges from 20¾ to 24 inches, with a tolerance on one-half of an inch either way.

MOVEMENT/GAIT

Easy movement, with the limbs moving in line with the body. The foreleg stride is medium, with good thrust from the hindquarters.

ELIMINATING FAULTS

(A dog with an Eliminating Fault is not to be considered for placement in a bench

show/conformation event, nor are they to be reported to UKC.)

Short, harsh coat.

Wry mouth.

Any color other than those listed.

DISQUALIFICATIONS

(A dog with a Disqualification must not be considered for placement in a conformation event, and must be reported to UKC.)

Unilateral or bilateral cryptorchid.

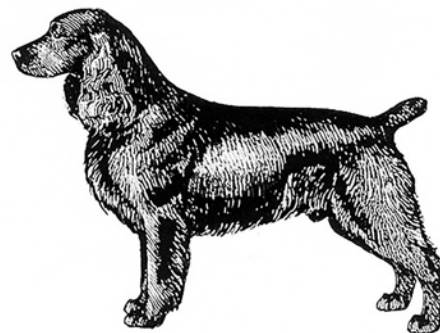

Viciousness or extreme shyness.

Albinism.

Undershot bite.

Overshot bite.

MEET: THE BOYKIN SPANIEL

HISTORY

Breed history states that sometime after the turn of the 20th century, a small dog was found wandering near a Methodist church in Spartanburg, South Carolina. One of the people attending the services there, a Mr. Alexander L. White, took the dog home as a pet. The dog apparently displayed some hunting aptitude so Mr. White sent the dog to be trained by his hunting partner, Mr. L. Whitaker Boykin of the Boykin community just outside of Camden, South Carolina. With this training, the little stray developed into a superb turkey dog and waterfowl retriever.

This dog, said to be a male, was the forerunner of all Boykin Spaniels in existence today. Early ancestors of the breed are thought to be the Chesapeake Bay Retriever, Springer Spaniel, Cocker Spaniel and the American Water Spaniel.

The Boykin Spaniel was recognized by the United Kennel Club in 1985.

GENERAL APPEARANCE

The Boykin Spaniel is a medium size, sturdy, typical spaniel. This sporting dog is first and foremost a working dog with proven retrieving and flushing instincts

and hunting ability.

Working dogs are not to be penalized under any conditions for scars or blemishes that are due to hunting injuries.

Disqualifications: Unilateral or bilateral cryptorchid.

CHARACTERISTICS

The breed is characterized by boundless enthusiasm and endurance, and moderate speed and agility, possessing an intelligence and desire to please that makes him easy to train. His amicable disposition makes him an exceptional pet and companion. Love and personal attention improve his desire to hunt. He is a strong swimmer, taking to water easily, and therefore is valuable for water retrieving as well as flushing and retrieving in the field.

Disqualifications: Viciousness or extreme shyness.

HEAD

The head is basically spaniel in shape. Viewed from above, the width of the muzzle is half the width of the skull. Viewed from the side, the nasal bone is straight, with a positive break at the junction of the muzzle and the skull, and the toplines of the skull and muzzle are parallel. Measuring from the tip of the nose to the base of the skull, the length is about the same length as that of the neck. The forehead is covered with smooth, short hair.

SKULL

Fairly broad, flat on top and slightly rounded at the sides and back.

MUZZLE

The jaws are strong enough to allow the dog to efficiently carry game, as well as straight and long for free development of good scenting ability. The upper lips cover the lower jaw, but are not pendulous or exaggerated.

Fault: Snipey nose.

NOSE

Broad, with well-opened nostrils. Liver in color.

TEETH

A full complement of strong, white teeth meet in a scissors bite, the lower incisors touching behind the upper incisors.

Faults: Undershot or overshot bite.

EYES

Eyes are set well apart, oval in shape and are varying shades of yellow or brown, harmonizing with the color of the coat. Expression is alert and intelligent.

Fault: Prominent eyes.

EARS

Ears are set slightly above the level of the eyes, and have rounded tips. They lie close to the head and the leather reaches to the end of the nose.

NECK

The muscular neck is moderately long and slightly arched at the crest. It blends gradually into sloping shoulders.

Faults: Abruptly angled neck. Excessively throaty.

FOREQUARTERS

The shoulder blades are long and sloping, forming an angle with the upper arm that sets the front legs well back under the body.

FORELEGS

When viewed from the front, the medium length legs are straight. Bone is strong but not coarse.

BODY

The Boykin Spaniel is sturdily constructed, but not too compact. The height, measured at the shoulder, should be less than the length of the body, measured from the point of the shoulder to the buttocks. The chest is well-developed. The back is strong, straight and level. Ribs are well sprung, oval in shape, and loin is short, muscular and slightly arched. Croup slopes slightly to the set on of the tail.

Fault: Barrel-chested.

HINDQUARTERS

Muscular, and with angulation that balances with the forequarter.

HIND LEGS

When viewed from behind, they are strong and straight. Hocks are well let down.

Fault: High hindquarters.

FEET

The feet are slightly oval, firm and well padded, harmonizing with body size. They turn neither in nor out.

TAIL

The tail is customarily docked to result in a 2½-to-3-inch tail at maturity. Suggested docking procedure is to leave one-third of the tail when docking at between three to seven days of age. Tail carriage is typically spaniel, horizontal or slightly above, but never vertical or curled over the back.

COAT

The desired coat is flat to moderately curly, and of medium length, but a short, straight coat is acceptable. Light feathering on the legs is acceptable.

Fault: Rough, curly, harsh coat.

COLOR

Solid, rich liver or dark chocolate. A small white spot on the chest is permissible.

Disqualifications: Albinism.

HEIGHT AND WEIGHT

HEIGHT

Males - 15½ to 18 inches; Females - 14 to 16½ inches.

WEIGHT

Males - 30 to 40 pounds; Females - 25 to 35 pounds.

GAIT

Effortless, active and merry, with balanced front reach and rear drive. As speed increases, legs tend to converge toward a center line of travel.

DISQUALIFICATIONS

(A dog with a Disqualification must not be considered for placement in a conformation event, and must be reported to UKC.)

Unilateral or bilateral cryptorchid.
Viciousness or extreme shyness.
Albinism.

The docking of tails and cropping of ears in America is legal and remains a personal choice. However, as an international registry, the United Kennel Club is aware that the practices of cropping and docking have been forbidden in some countries. In light of these developments, the United Kennel Club feels that no dog in any UKC event, including conformation, shall be penalized for a full tail or natural ears.

NSTRA HALL OF FAMERS

NSTRA STATS

As of 2023, 64 dogs have been accepted into the NSTRA Hall of Fame. Their accomplishments include the following:

- 78 regional wins
- 18 Quail Invitational wins
- 19 Trial of Champions wins
- 7 Grand National wins
- 10 Endurance wins
- 26 Dog of the Year wins
- 24 Top Performance wins, and numerous Top 4 placements.

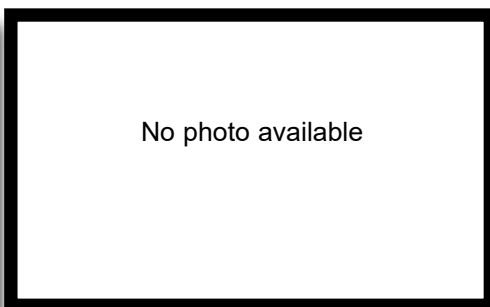

In addition, this collection of dogs have 777 NSTRA championships with 14,159 points (8,540 of which are 1st place points) among them.

This is truly the best of the best, the most elite group of dogs NSTRA has to offer!

We will be Spot-Lighting some of the dogs from the past. Hope you will enjoy this "Blast from the Past."

Ace's King
Bob Cunningham - IL Region

Inducted Year 2002 Last October the Hall of Fame committee elected two dogs into NSTRA's Hall of Fame. One of those two dogs worthy of induction was Ace's King.

King was out of Louie's Mohawk Deuce and Jack's Candy Apple. Ace's King belonged to past NSTRA president Bob Cunningham of Medora, Illinois. He was purchased from Matt West of Bunker Hill, Illinois. Bob got the bargain of his life, only paying \$50 for King. No one seemed to want the darkest puppy in the litter, but Mr. Cunningham saw something in that little dark-faced setter.

Bob started his NSTRA trialing career in September of 1980. And on a May day in 1981 at Gunsmoke Kennels, King showed Bob what a bargain he did get and what caliber of dog he had on his hands. He placed second at that trial. From that point on, there was no stopping Ace's King. He earned his first NSTRA championship by October of 1983.

In April of 1984 he earned number two. Later that year Ace's King won the Illinois region elimination. He won the Champion of Champions Trial in April of 1985 with a posted score of 1052 points, thus also becoming an American Field Champion. In 1986 he became a 7 and 8 time champion, along with a second place finish in the Illinois region elimination. King earned his 9th championship in January of 1987 with number 10 just 8 short months later in September of 1987. King was NSTRA'S first 10 time Champion. His last placement came in January of 1988 which gave him his 11x NSTRA championship. Bob retired King after his

11x Championship at the age of nine years old.

Bob and King were trialing at a time when many trials were only held on Saturday only and endurance trials were unheard of; a time when points and championships were more difficult to earn than today. King was the kind of dog one only dreams of; a dog that can wild-birdhunt one day and field trial the next. More than one judge made the statement that King was probably the most "broke" dog in NSTRA at that time.

It was a time when NSTRA dogs were taught to hold that point no matter what. There was not such a thing as "moving from its resting place". The dog had to hold point even if the bird walked under its nose.

King traveled many miles in a dog trailer to trials. He traveled even more miles by himself. You see, King was a free spirit who would take off on little adventures now and then. He ran off in Minnesota, crossed two busy interstates to end up attending a bbq with some folks 15 miles from the field trial grounds. One winter he decided to hunt on his own while wild-birdhunting in Childress, Texas only to be picked up by two ladies and hauled to Dallas (approximately 4 hours away) and was retrieved by Bobby Clark.

His escapade in Washington State the next fall landed him on a cattle ranch. Gailen Carothers rescued King that time and flew home with him to make sure he "landed safely". Luckily for King, he was usually found by someone who would call Bob and say "I think I have your dog here". He left the field one morning while Bob and Marilyn were in Florida in 1990 only to never return. We hope he ended up with some nice people and didn't end up an alligator's lunch, which seems to be the theory.

King sired 17 dogs who placed in NSTRA field trials. They are: Ace's Oscar's Cissy, Bridgette Greenwood, King's Dizzy Tis, Master Mohawk Mike, AK's Ike, Woodland's King Reggie, Perkins Dixie Bell, Ace's Hope, Ace's Whisky Lady, King's Blitzzen, King's Gabby Girl, Trentham's Dixie Amy, Smokin Mohawk, Ace's Rebel Sally, Ace's Ranger, and T's Dixie King.

In 1991 Master Mohawk Mike won the Top Performance Award, Ace's Whisky Lady won the NSTRA Dog of the Year trial in 1992 and Smokin Mohawk was 3rd runner-up in the 1995 Ralston Purina Endurance Trial.

Tomoka's Smokin Mike
Greg Wood & Logan Amsparger
KY Region

Year Inducted 2002 Tomoka's Smokin Mike was owned by Greg Wood and Logan Arnsparger of Kentucky. Mike was a 15x NSTRA champion out of Tricky Dick Jim by Cash Master Kelly. Greg has been field trialing since he was a young boy. He joined NSTRA in 1981. It wasn't until 1990 when Mike came along. Greg knew he had something special in this little setter pup. Mike captured his first placement at the tender age of 22 months at the Ohio County Quail Hunters trial in October of 1991. It didn't take Mike long to figure this field trialing out as he had earned his first championship one year later in 1992. Tomoka's Smokin Mike averaged about two championships per year after that first one. He earned numbers 2 and 3 in 1993, numbers 4 and 5 in 1994, numbers 6 and 7 in 1995, numbers 8 and 9 in 1996. Then he doubled his efforts – earning his 10th, 11th, 12th and 13th NSTRA championships in ONE YEAR!! One championship is quite an accomplishment, but four in one year is absolutely phenomenal! And phenomenal he was. Along with that, his accomplishments include: fourth in 1993 Kentucky region elimination; second in the 1993 Dog of the Year trial; first in the 1994 Kentucky region elimination; fourth in the 1994 Trial of Champions; third in the 1995 Dog of the Year; second in the 1997 Quail Invitational; third in the 1997 and 1998 Kentucky region elimination; second in the 1999 Quail Invitational; and fourth in the 1999 Grand National. Mike was a once in a lifetime dog – but his daughter Sadie is proving to be another

once in a lifetime dog for Greg and Logan. Mike has sired 40 dogs who have placed in NSTRA field trials. They are: Tricky Dix Gem, Tekoa's Tricky Bull, Barb's Tekoa Trouble, Tekoa's Gusto, Tomoka's Smokin Sadie, Tomoka's Star Sunrise, Lightfoot Max, Tomoka's Smokin Chip, Maggie's Smokin Jed, Tomoka's Smokin Maggie, Smokin Red Pepper, I'm Smokin Rocky, Maggie's Smokin Cody, Spud Lake Bessie, I'm Your Huckleberry, Smokin Moses, Tomoka's Slick Trick, Jafkens Movin Maria, Phipp's Susanna Sue, Blue Grass J.D., Smokin Tomoka's Babe, Maggie's Smokin Jessie, Basketts Speck, Smith's Performer Jake, Tomoka's Smokin Buster, Mike's Maximum, Rough River Jake, Lyssa's Miss Nellie, Freckled Kate Marie, Tomoka's Smokin Ruby, Tekoa's Smokin Scout, Tomoka's Smokin Max, Carnley's Tekoa Max, Nalls Smokin Wheel, Mike's Smokin Pepper, Mike's Smokin Sadie, Tomoka's Smokin Blu, Smokin Duchess, Reason for Divorce and Wild Willy. Mike was not only a great bird dog as proven, but he was an awesome pet, best friend, and companion to have around. He will be missed by his family and a few trialers for years to come. He showed that English setters have what it takes! He had the endurance, intelligence, confidence, and most of all, he had heart. He was in it for himself, of course, but most of all, he did it to please his co-partner, Greg. They were a team that knew what to do with only a look of the eye. There will never be a pair like them. We'll miss you Mike!! See you in bird dog heaven. (Morgan & Meghan says)
