# WELCOME, NEW MEMBERS!!

1. Where did you hear about NSTRA/what was the appeal of NSTRA for you?
2. What breed of dog will you be trialing/what is your background with bird dogs?
3. Will your family be a part of the association/attending trials with you?
4. Anything else you would like to include?

## Rob Alongi

1. I heard about NSTRA through word of mouth.
2. My dog is an English Pointer.
3. My girlfriend may be attending trials with me.
4. My dog is world famous Clown Face Boo - grandson of Crosswind Jim. Has never competed.

## Angelo Jankowski

1. I heard about NSTRA through podcasts, Instagram, trainers. Everyone says it's a ton of fun to get into and extends the season, which I would never complain about.
2. We have a first bird dog, Mac, a 2 year old German Shorthair Pointer. We will be adding a puppy in October, another shorthair.
3. My wife will be right by my side, cheering both of her boys on!
4. This 2024 season will be our second season with a bird dog and upland hunting. We are already hooked and can't wait to see how Mac can stack up against some other dogs.

# NSTRA MEMBERS - Important things to remember!

## Reminders – check back often!

National trials are the responsibility of the National Officers with input from the Board of Directors and the local co-chairs of national trials. Criteria for entry, which may be subject to change, for the original 5 National Trials is available in the reference section of the Rule Book beginning on page 41, Section 11. If a particular national trial is subject to changes in the entry criteria, there will be notice provided on the official entry form, in the magazine, on the national website, and/or by email if available.

To enter a national trial, you may submit a hard copy official entry form and payment, OR you may scan and email an official entry form with payment information, OR you may send by facsimile and official entry form with payment information, OR you may enter and pay on-line on the website. NO EXCEPTIONS.

Please note that additional new national trials may be added from time to time and do not yet appear in the current Rule Book. Please contact your National Officer Representative or the National Office staff for additional information regarding such trials. The current list of National Trials is as follows:

**QUAIL FOREVER**, formerly known as Quail Invitational. This is a revolving trial generally held in February.

**TRIAL OF CHAMPIONS**. This trial is held in Amo, Indiana, in April.

**NATIONAL AMATEUR TRIAL OF CHAMPIONS**. This trial is held in Amo, Indiana, in April.

**UKC PERFORMANCE TRIAL**. This trial is a revolving trial generally held in June.

**PURINA ENDURANCE CLASSIC**. This is revolving trial generally held in September:

**DOG OF THE YEAR**. This trial is held in Amo, Indiana, in October.

**TOP PERFORMANCE AWARD:**  
To be eligible:

\*Dogs must have at least 20 open points accumulated in weekend trials between June 1 through May 31 of the applicable year. Once a dog is eligible, a schedule of scoring is applied based on the results at regional elimination trials and National Trials

\*The Performance Trial will be the beginning national trial each year, even if it ends prior to June 1 in order to keep the number of national trials the same each year.

\*The Regional Elimination trial results used in calculating Top Performance Awards is the regularly scheduled regional elimination championship in the qualifying year/season (only one regional

can count per year). Regionals scheduled or re-scheduled to be held after June 1 will apply to the previous year. Each regional elimination will have a point value of 600 points. The value will drop 25 points per placement until the last dog or points run out (1 – 600, 2 – 575, 3 – 550, etc.). The placement for the regional eliminations is determined by the score of the last round in which the dog ran. In addition, 100 points will be awarded to the Champion, 75 for the second-place dog, 50 for the third and 25 for fourth.

\*The National Trials results are calculated as follows: A dog must place in the top 32 dogs to receive a qualifying score from that trial. Each national trial will have a point value of 800 points. The value will drop 25 points per placement throughout the Saturday cut (1 – 800, 2 – 775, 3 – 750, etc.). The placement for the national trial is determined by the score of the last round in which the dog ran. In addition, 100 bonus points will be awarded to the Champion, 75 for **second place**, 50 for third and 25 for fourth.

## HALL OF FAME NOMINATIONS:

Hall of Fame nominations will be accepted in a rolling calendar throughout the year. Send these nominations to the nation office, or to a national officer no later than March 31 of the year in which a dog is to be considered. Nominations of dogs to the NSTRA Hall of Fame are NOT “carried over” to following years. Plainly stated, a dog that does not get elected to the Hall of Fame in the year nominated must be re-submitted in order to be considered for election. The National Officers, in concert with the Board of Directors, make selections to the Hall of Fame each April.

## TRIAL SCHEDULES:

Fall/winter trial schedules are due in the office by May 1. Spring/summer trial schedules are due in the office by Nov. 1. All trials must be published on the website 4 weeks prior to their running.

## SANCTION FEES:

Trial sanction fees are required BEFORE a trial packet is mailed and before a trial may be “approved” in the system. Please pay all sanction fees at least 4 weeks prior to your trial date to ensure prompt mailing of the packet and to ensure that the trial may be drawn in a timely manner.

## TRIAL REPORTS:

Trial reports and results should be entered into the trial draw system as soon as possible after a trial and no later than 10 days after the trial date. Overall results will not be approved until the reporting is complete. First place points and championships will not be confirmed or awarded until the reporting is complete. (This includes receipt of all registration paperwork for placing dogs.)

## HOME REGION:

Members requesting a change of Home Region must do so, in writing, through the National Office between the dates of October 1 and January 1.

\*Exception: A member who permanently relocates to within the boundaries of a Region, other than their Home Region, may make written application to the NSTRA office at any time to request a change in their Home Region.

## ASSOCIATE MEMBERSHIPS:

Associate memberships are available to members' spouses and children 18 years and under, still living at home. There must be at least one regular paid membership in the household to qualify. Associate members have the same rights as regular members with respect to participating in field trials (e.g., owning dogs, handling dogs, judging, bird planting, etc.). Associate member may not vote in any regional or national elections including rule or by-law changes, they cannot hold an office, and they do not receive a magazine.

## RULE CHANGES:

Proposed rule changes or new additions shall be submitted sixty (60) days prior to the first day of the Trial of Champions and/or the Dog of the Year trial.

## CONSTITUTION/BY-LAW CHANGES:

All proposed amendments to the Constitution and By-laws shall be submitted to the National Officers at least ninety (90) days prior to the first day of the Trial of Champions and/or the Dog of the Year trial.

(continued on next page)

## REGION HIGH POINT:

Points earned in the qualifying rounds of a Regional Elimination or a Championship trial DO count towards the region's high point competition. Points earned in the finals of above trials DO NOT count towards the region's high point.

## OWNERSHIP CHANGE:

Once a dog takes a NSTRA placement, any subsequent ownership changes must be sent to the NSTRA office. Please send a copy of new registration papers with the new owners' names to the office. The date of transfer will be the date shown on the registration papers.

## UNREGISTERED DOGS:

As of June 1, 2022 a dog cannot run in a NSTRA trial without a system-generated dog profile or record. A trial coordinator cannot create the record. National staff or officers can only create the record once registration papers are received in the NSTRA office. In addition, there remain many "unapproved" dogs in the system. Unapproved dogs shall not be entered to run in trials until proper paperwork is received and appropriate action to create the record is completed. This can either be submitted by the owner or the trial chairman. We will accept copies by fax (317-839-4197), e-mail (office@nstra.org), or a photocopy by regular mail.

## NSTRA DISTINGUISHED MEMBERS:

The NSTRA Distinguished Members award honors those extraordinary men and women whose contributions and achievements significantly helped develop, or continued to improve, the National Shoot to Retrieve Field Trial Association, Inc. This award will be presented annually at the Dog of the Year banquet. Nominations may be submitted at any time to the staff at the national office, to a National Officer, or to the current chair of the Distinguished Members Committee. A short description of the individual and their contributions to NSTRA should be sent to the national office. A picture of the individual should be included, if

available. Contact the NSTRA office for a list of criteria. The committee will review all Nominations and verify contributions.

Decisions will be made not only by the information submitted but by any other information collected. The committee will make their decision by the April Board of Directors' meeting. A permanent plaque will be located at the NSTRA office with a smaller plaque awarded to the individual or their family if deceased.

# 2024 Trial of Champions

The 2024 Trial of Champions was held on April 24th through the 27<sup>th</sup> at the Amo Conservation Bird Dog Club in Indiana. The trial started with 124 dogs drawn but by the time the trial started, we would have 14 bye spots to fill. This is the most difficult trial to fill because the requirements are based on open championships. It is also the one where the competition is the toughest.

Our officials were Julia Herwehe (IN), trial chairperson; Bodie Ray (GA), judge; Stan Perdue (GA), judge; Doug Cartwright (BSR), judge; Ariel Alvarez (FL), judge; Deborah Heaton (LST), field marshal; Alan Anderson (IL), field marshal; and Eli Coke (MI) bird handler

*TOC Judges Stan Perdue, Doug Cartwright, Bodie Ray and Ariel Alvarez*

*Eli Coke, bird handler*

Each entry received a goody bag with a #5 bag of **Purina** Pro Plan, a hat embroidered by **Moore, Inc.**, a pen, and a notebook. **Moore Inc.** also donated car coasters.

Round 1 on Wednesday would start out overcast and cool. 16 dogs from each field from Round 1 would advance to Friday. Bodie, Stan and Deb would be on A Field.

**Wednesday A Field – Brandon Ralston, Eric Forrester and Clay Little**

**Wednesday B Field – Wayne Fishburn, Kara Laraway and Mychalie Moore**

Wednesday night we were treated to a welcome dinner by the Conservation Bird Dog Club. Ed Jobst cooked the flavored pork loin and we had baked beans, macaroni and cheese, salad, and dessert. It was a great meal. The guests and participants then moved on to either the Board of Directors' meeting or assembling around a fire somewhere in the campground for camaraderie and storytelling.

Thursday started out cold but would warm up in the afternoon. The officials would switch fields.

Friday evening, all participants would be on their own for dinner plans and lots of rest. Saturday would be grueling for all those that were moving on and since this trial contains all champion dogs and handlers, there is never a clear-cut winner. Anyone can win from here on out.

Saturday's round started with a humid 64 degrees. We would run 24 dogs on each field and move the top 6 from each field on to round 4. Round 4 would be 6 dogs run on two fields which would whittle it down to the final 6, 3 from each field.

Round 5 would start out in the heat of the day; dogs and handlers are tired. This is the best of the best but only two can move on to the final hour. Every one of these handlers has been in this situation before and they know what they need to do. It is up to the dogs to get it done. Congratulations all to making it to the Top 6!

# Final Hour

## Final 2 and judges

The participants elected to take the hour break before running the final round. We were going to see what it was like for one of the winningest dogs in NSTRA to compete against a newcomer to this elite competition. Both handlers checked their watches and let the dogs loose! After a busy hour, with both dogs hunting endlessly, 10 birds were found, 4 for Thelma and Jr. and 6 for Jimmy and Scott (although one was dead). Jimmy outscored Thelma and had a back, giving him yet another national title.

## Thanks:

I want to personally thank Kerry Hornaday and her kitchen staff for keeping the kitchen running smoothly and producing some incredible meals. It's a hard and tiring job, (I know) but you keep us all fed, fat and happy!

Thank you to the Conservation Bird Dog Club for your hospitality and assistance. The fire pit in front of the clubhouse was an awesome addition on those cool days and nights and we sure went through a huge pile of wood. Many members made a stop, got warm, sat down, and provided interesting stories.

I want to give a big shout out to a special person, my right hand, the one that keeps everything going smoothly and who went above and beyond this year filling all those bye spots. My trial coordinator, Emily Coke. I couldn't do it without you. You are the best!!!!

Thanks to all the members who pitched in when I needed them, whether putting up banners, moving tables and chairs, and getting set up for awards or meetings and Michele Parient, Manon Chamberland, Heather Remington and Dale Heaton for the pictures. And finally, our sponsors. Without you we would not have the ability to put on one national trial, let alone 5. You are so generous to us, and we certainly appreciate your help and donations.

Final 4

# 2024 Amateur Trial of Champions

This is the third year for the Amateur Trial of Champions, and I believe this one was the best yet! I kept hearing how much fun they were having on C Field! We started with 59 dogs and just like the open trial, had some bye spots to fill. This trial is a beat-your-brace-mate (BYB) format. We would take 15 BYB dogs plus the highest scoring dog that did not beat his brace-mate to make the 32 dogs needed to continue in that format. Since this is also run as an open/combined trial, it makes it a little more difficult for the coordinator to make sure the placements are correct as many of these dogs are amateur champions but also have enough open points to no longer be considered amateur dogs for competition.

Our judges were Pete Zeldenrust of the Indiana region and Ron Becker of the Illinois region; Field Marshal was Heather Remington of the Florida region and Bird Handler was Michael Wayne from the Florida region. These officials really kept it moving smoothly.

# Tracking

by Rick Smith & Sharon Potters

If the world were perfect and all of us with it, every shot we take would bring down a bird cleanly. Yeah. Not likely. No matter how good a shot we are, there will be birds that come down wounded and far from dead. How many times has a big Kansas rooster folded up and landed in a heap and you know it is without question stone dead, and you get to where it fell only to find it has somehow resurrected itself and disappeared? Or a ruffed grouse that hit the ground hard has somehow gone missing and found a hollow tree stump to hide in?

An oft-neglected part of a dog's training is learning how to deal with finding cripples and dead birds. This includes tracking them down and hopefully retrieving them to hand. Whether or not you want your dog to retrieve to hand is a choice only you can make. We prefer it for several reasons. First, especially with a crippled bird, you stand a better chance of recovery if your dog is on the bird fast rather than your having to walk out to the area of the fall and search for it. Second, a dog that doesn't retrieve will usually find the bird and point it again, sometimes over and over as the bird keeps moving. This can have the effect of pushing the bird to move again if it is able, meaning it takes longer to end up in our game bag, which delays the hunt. Third, a dog that's not trained to retrieve to hand will sometimes get so excited by a fluttering, downed bird that he will grab at it, chomp on it, and play with it rather than picking it up and bringing it to hand. That's one bird that won't be fit for the table.

If we encourage the dog to retrieve at a young age, it sure makes working crippled birds easier. A dog that has been taught to never touch a bird will have a harder time because he believes the only thing he is allowed to do with birds is find and point them, alive or dead. Taking advantage of a puppy's desire to chase and retrieve

pays big benefits down the road.

One thing that's a huge benefit for young dogs is to make one of the first birds you shoot for them in a controlled training environment be a "cripple." That's hard to replicate if you're trying to handle the dog and shoot the bird without killing it, even if you're a great shot. What works well is setting up a simulated cripple situation by using a remote launcher loaded with a bird with the flight feathers pulled on one wing. The dog gets to work the field and point the bird while you control the situation, preferably on a checkcord. That means making sure the dog isn't standing right over the bird or too close to the launcher.

When you've got the dog where you want him, launch the bird and shoot at the top of the flight arc. The bird can only fly a short distance and will hit the ground. Release the dog and let him go to the bird, which will hopefully flutter and try to escape. This creates excitement for the dog, and the best thing you can do is be quiet. If the dog already likes birds, he doesn't need a cheerleader to encourage him, and often your voice is more of a distraction than a help anyway. With any luck, the dog will pick up the bird, and you can reel the checkcord in for a retrieve.

**A**t this point, take the bird and put the dog up for a few minutes. Now you can take advantage of that same bird to lay a bit of a track while the dog is resting in his crate or on the chain, where he can't see the field. Dispatch the bird quickly, snap the checkcord around two legs, and walk to a different area of the field (your dog is likely to return to the recent fun spot and that's counterproductive). Place the bird on the ground and drag it through the cover, making sure it's not heavy brush or too difficult; tall grass

is ideal. What we want is to leave a scent trail for the dog to follow, since a dead bird will have a different smell than a live one. Starting with about a 30-yard track is good. Unsnap your checkcord, leave the bird, and go get your dog and shotgun.

The plan is to pretend you're hunting for a new bird. If you know with certainty that your dog will make a retrieve and won't maul or grab the bird and run off with it, you don't need the checkcord. If you're not sure, leave it on and let the dog drag it. The last thing you want is for the excitement to turn into a game of keep-away. Don't walk your dog directly to the area where you left the planted bird. Instead, work the field in a different direction – you want to set up a shot situation where the dog is, say, hunting off to our left and we pretend an imaginary bird just flushed to our right and then is shot while the dog isn't looking. This is, of course, assuming your dog is well-accustomed to gunfire.

When the shot is fired, make sure the barrel is pointing in the general direction of your planted bird. Dogs tend to learn pretty quickly to cue off the direction your shotgun is pointing, so help them out from the start by holding the barrel steady and pointing toward the area where the bird is for a few seconds after the shot. Most dogs are going to look up and head toward you. When your dog does, move slightly in the direction of the bird but again, don't lead him into it. It's important to give him a chance to use his nose and figure out there's a bird in there.

Take your time. There is no rush. Your dog might put his nose on the ground and follow a track slowly and deliberately; or he might keep his head up and use the air more than the ground, not following the exact trail you laid. Either way is fine; the important point is that the dog should show you some excitement and act a bit birdy (we're talking about hunting here, not competition or test venues). If all goes

according to plan, your dog will get to the bird and either pick it up or hesitate and point it; and if your dog does retrieve, encourage him to do so.

The last element we have to add is the scent of blood. You can use that same bird along with the same routine as before, with your dog put up for a few minutes (and be sure to give him some water; this tracking business is thirsty work and dogs can smell better when they're well-hydrated and not dry). This time, use your pocket knife or similar and slit the bird open in a spot or two so there can be a blood trail. Drag the bird as before and allow the dog to work the scent. Be careful, as it's not uncommon for dogs to get pretty excited about a bloody bird; you need to have enough control that they don't decide to have a snack!

When this is working well, plan a session or two in heavier cover with longer tracks. And when your dog is getting the hang of it, which usually happens pretty quickly, add a simple, single verbal command to let your dog know there's a bird down. Keep it simple, something like *dead* or *dead bird*, and say it once or twice at the start; then be quiet and let your dog work. The more you say, "Dead bird, dead, hunt it up, come on, let's go, find your bird!" over and over, the more you distract your dog from the job at hand.

What we wouldn't give to spend just five minutes with a dog's nose! To know just how keen that sense of smell is, and what that is like to our dogs...it would be amazing to understand. They are all born with this wonderful ability to use that nose for us, and we owe it to them to give them every opportunity to develop that talent.

## **AUTOMATED EXTERNAL DEFIBRILLATORS (AEDs) Fund Raiser by Wayne Fishburn**

The NSTRA community suffered profound loss, as two cherished friends, Paul DaCosta and Aaron Humphrey were taken from us due to sudden cardiac arrest while in the field. Emergencies in field trial locations can be particularly daunting, with limited communication and emergency services often minutes away.

According to the American Heart Association, the chance of survival diminishes by 7% to 10% every minute a normal heartbeat is not restored. Immediate intervention through CPR and the utilization of Automated External Defibrillators (AEDs) can significantly enhance the odds of survival by doubling or even tripling the person's chances.

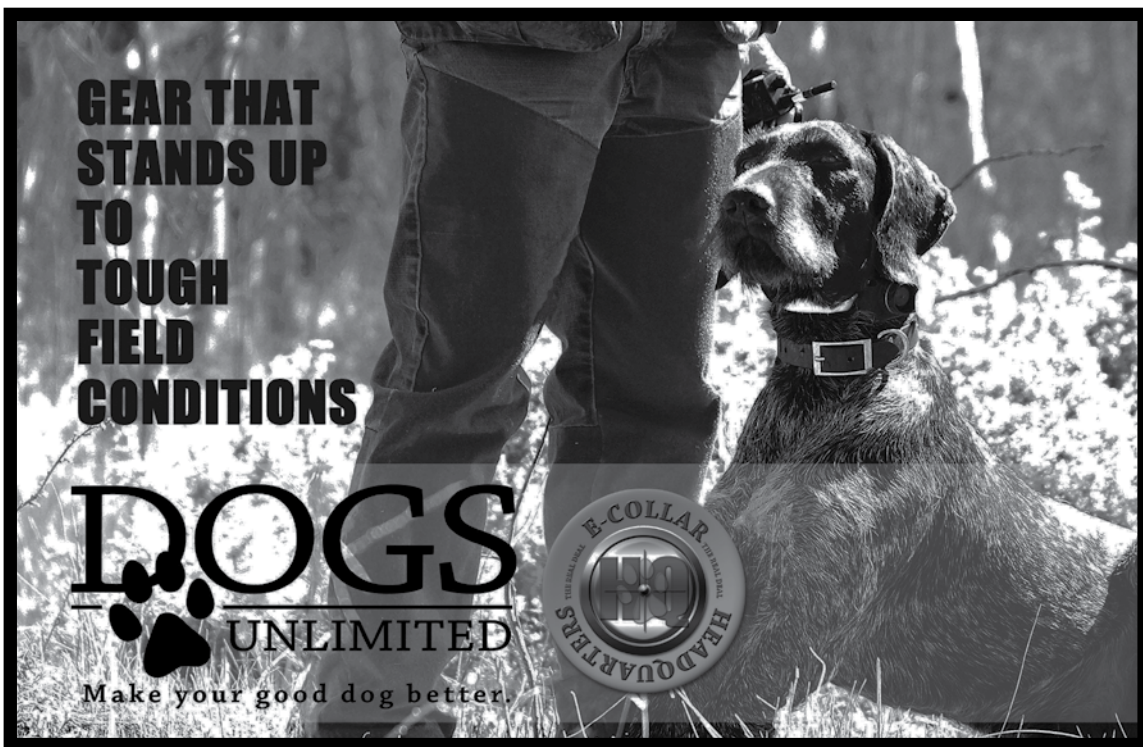

In response to these tragedies, Wayne Fishburn, Indiana Region, channeled our loss into a positive by raising funds for the acquisition of AEDs, ensuring multiple regions will have access to these life-saving devices. Thanks to Wayne's efforts Indiana, Ohio, Kentucky, and the Arkansas/Louisiana region are now equipped with AEDs to be deployed during trials. Wayne is seeking funds to support others!

Thank you, Wayne, for your impactful contribution to the safety and well-being of our members!

Please consider a donation to provide AED's for other regions. Fundraiser by Wayne Fishburn : Save a life NSTRA AED fund ([gofundme.com](https://www.gofundme.com))

**An AED, or Automated External Defibrillator, is a portable device that can help save someone's life during sudden cardiac arrest. It delivers an electric shock to the heart to restore its normal rhythm. Easy to use, it's crucial in emergencies when someone's heart stops beating.**

## **The Automated Asher Backing Dog**

This innovative device is specially designed to simulate a lead dog on point, making it perfect for teaching your dog to honor the point while enhancing its steadiness and obedience.

This publication which began in 1949 keeps you abreast of what is happening in the Brittany world. The magazine contains reports of field trials, shows, hunt test and agility/obedience events, club activities and articles on the care and training of the Brittany. The magazine also has articles on hunting and general interest as well as listings of kennels, stud dogs and trainers.

# The Doldrums

**By: RandySchultz**

I don't have any use for summer. Except for an hour after sunrise, it's too hot and humid to train dogs. The pasture grass is too high, and the ticks and fleas are nasty. Unfortunately, we have plenty of summer here in Georgia. The dogs get a few months off. Shaded kennels and a huge shop fan keep them happy and cool. On really sweltering days, they have "The Condo", an insulated room with air conditioning and a dog door. But I think that may have been a waste of effort. They really don't use it much, and prefer to lie on top of their DogDens, in the shade, and keep an eye out for renegade squirrels.

A few years ago, our old house started feeling like a prison with the brutal heat and humidity outside. We decided to take a camper trip out west. We wanted to try fly fishing, so I bought an outrageously expensive fly-fishing outfit from Bass Pro. It even had a little tube to put the flimsy pole in. I was impressed. Rod, reel, and line set me back close to a hundred dollars. Then, I had to buy fake bait. I drew the line at waders, boots, vest and all that stuff.

We headed west and I made a phone call to a guy I met at a few NSTRA trials over the years. Gary lived in Ennis, MT. He and Martha were both fly fishermen, I remembered. Gary said come on by. He said he'd be glad to take us fishing. We showed up with the camper, parked it, and stayed in his guest house. The next two days, he rowed us down the Madison in his drift boat. We learned so much about fishing! Gary was the consummate host as he gently instructed us on casting and attaching the flies, etc. At one point, my wife's reel self-destructed. Martha took it off and went to the local fly shop. "I hope they can fix it," I said.

She looked at me, bemused, and said, "Randy, I'll get her a nice one, don't worry. This one can't be fixed." That is when I learned about good equipment. It's just like a nice shotgun, or bird dog. It's not cheap. About halfway through our stay, I noticed we were using their rods, reels, and flies. I fell in love with one of Gary's setups. I can't remember the name of the rod (Wilson?), but I do remember it effortlessly put the fly just where I was looking - every time.

We left our amazing hosts and drove down to the park. We saw bears, Elk, deer, geysers, steam and amazingly beautiful scenery. We also saw some awesome rivers. Fishing rivers. Yellowstone NP has a lot of great fishing. I noticed, and it appeared I was hooked (pun intended). We drove to meet another Gary who lives in Wyoming. I met him through a Facebook Group friend of a friend. My wife calls these meet ups "facebook dates". This Gary is also an expert fly fisherman. He met us at our camp in the mountains and arranged to take us down the Big Horn River in his drift boat. Again, I noticed he gently took my wife aside to get her a nice Cutthroat using his own setup. I thought I would get excited when I had a big fish on the line. My wife got even more excited. Gary knew exactly what he was doing. It helps that he is a licensed fishing guide and a pro.

Since that trip, we make time to break up the summer with a trip out west. The Madison, Gallatin, Big Horn, and Missouri Rivers, and numerous smaller trout streams were destinations. The equipment, of course, got a huge upgrade. I ran into trout bums from all over the country. Some that even made their own rods from bamboo. One year, my wife and I flew out to fish Yellowstone N.P. We found a wide stream meandering through a broad meadow and put out on the trail that ran along side. She was very concerned about bears and was uncomfortable about fishing there. She took two cans of bear spray and settled in not far from the car, while I eased up the stream for a short distance. I met two old men walking out toting bamboo rods and worn-out fishing vests. They said the fishing was great. I cautioned them not to act like a bear up around the bend in the trail or they'd get two cans

of bear spray in the face. We all laughed, but I noticed them looking where I was pointing. A short distance up that very stream is where I stalked and landed my first wild Rainbow trout. Later, my wife said she heard me whoop!

Years after those first few trips, I am still a novice fly fisherman but with nicer equipment. And, while the tug to fish might not be as all-consuming as the yearning to be in the field with my bird dog, I will use the heat of summer and fishing as a great excuse get out west again. After all, I don't know who said it first, but "Trout don't live in ugly places." It's true.

## 2023 DOG OF THE YEAR WINNER DEAN GOODALL

### 1. How did I get started in NSTRA?

Owen Johnson Taught school with me in Dickinson ND, he owned a GWH named Waldo among others, however, at that time Waldo was the winningest GWH in NSTRA. He talked me into going to my first trial and after that I was hooked. I believe that was early 2000's - I took a hiatus after my divorce – but when I met Kristy – she convinced me to try it again and we have kept rolling.

### 2. What was the Name of my first dog?

I assume you are referring to a trial dog, her name was Dixie, a liver roan GSP. Dixie was a great wild bird dog but was not a good trial dog LOL, I was not a very good trainer, and she was a natural rock star on wild birds as she never ran without a collar, but in a trial she was a creeping fool – along with the rest of my first round of dogs I attempted to compete with.

### 3. Did you raise Her from a puppy?

Yes, I had gone hunting with my brother and his friends and watched a GSP his friend had point bird after bird. I had a springer at the time, so had always been around flushing dogs and watching my first pointing dog in person had me hooked. The friend said the littermate to his dog had a litter on the ground - so after a quick trip to town - I went home with a 8 week out female and that was my start in pointing dogs.

### 4. Did you train yourself?

Yes and No As I said before my training was a disaster when I did it myself, several really quality dogs had really technically awful NSTRA careers because of my "training". In 2014 I started working overseas in Russia and was gone every other month. Working like that I was not able to force train or get finished training dogs, so Chuck and Sandy Ludolph, and Tom Dafnis told me that I should send them to John Resa to finish for me. I contacted John and from that point forward I have never tried to start a dog myself. All my success in this game has come since that decision and I have had John start every dog since. He does, however, always says when I get them back, "I have this dog ready to go its your job not to mess it up now"

I have lots of friends who are much better trainers then I ever will be take me under their wing and teach me everything they can. That's what is so great about this game, the great ones are always willing to share things to help you in most cases all you have to do, is ask.

### 5. How did you prepare for the DOY Championship?

Well not the normal way that's for sure, Cowpie's story begins the year before actually. She ran in the 2022 DOY, came home, and the next weekend went to Waverly Ne to run in a trial with Kristy. At that trial Kristy called and something is wrong with Cowpie. When she got home the vet determined that a grass awn had got to her lung, and it had to come out if she was to survive. It just so happens there are few places in the country, typically university hospitals and specialized canine surgical centers, where this type of surgery is performed and we were stuck in a blizzard with all the roads out of ND closed.

Our vet informed us – that she would die without the surgery – she had only done something similar once prior – but with no options to get her anywhere we had no choice but to go with our local vet. She was going to die – if nothing was done. So, with a vet tech filming on facetime with a surgeon from vet school in Georgia watching and giving blow by blow instructions, an equine ventilator, and a phenomenal local surgical team, Cowpie underwent full open chest surgery. Two months later she was cleared to exercise and come out of kennel. At that point, having missed most of the winter /spring season, when she came into heat we decided to have a litter of pups with her. The pups didn't come off till late August. Needless to say she was not in very good shape. We really had no expectations for her that fall at DOY.

### 6. Which of the braces during dog of the year week was the toughest?

Hard to pick one over the other. On Friday, I was in 12th place watching the field with 2 braces to go knowing if any 1 of those 4 dogs had a 3-3 and a back, I was probably going home. Last brace of that day, a dog had a 3-3 and was coming in to get his back and I thought my run was over. Luck would have it; the dog zeroed the back, or I would not have even made it to Saturday let alone win it. The brace that I think was our toughest was against Dale Roberts. We were up 3-3/B to 1-1/B, and he came back to finish 3-3/B as well. I think we advanced with only a 2- or 3-point win. In the round of six I faced Greg Wood and Patch, and barely got by and then to have to face them again in the final. I was definitely not expected to do it again.

## 7. When did you actually think you had a chance to win DOY?

Two things happened in that final hour that made the difference for me. Greg and I started finding birds in different spots, so neither really knew where or what the other guy had for birds. I watched Greg trying to get his dog called over to him on the backside of the pond on A field, so I figured he knew something I didn't. I rushed over there with Cowpie and just as I was getting into the area Greg walked up a bird and it flew out of bounds. I knew that was the last bird up front to be found if it was a planted bird so thought I was lucky to have him not score that bird. The second thing was after that, we both hunted the B field hard because 2 birds were missing from back there. We both spent 10 minutes looking with no luck.

At that point, I got worried that the bird we bumped out was not the 5<sup>th</sup> bird up front so I decided to go back up to look some more in A field. No sooner than I did then I second guessed myself and decided to go back and because of where I was, I went through the middle gate instead of either end gate. We had both been through the end gates more than once but that was the first time anybody went through the middle. As soon as cowpie stepped into the B field after going through the middle gate she slammed a point. The judge was hustling though right behind her and almost hit her. That was my 4<sup>th</sup> bird. With me not knowing what he had, and Greg not knowing what I had, he asked if we wanted to share at that point what we had so I had 4-4 and he had 3-3/B. I spent the next 15 minutes following him around thinking I needed a back if he found a bird. That was the longest 15 mins of a trial I have ever been in.

## 8. Who has helped /influenced you the most in NSTRA?

I can't really single out just one person really, like I said earlier everybody in this game is willing to help if you just ask them. But to name names, First of all, John Resa with the training ... we can only do what we do because of the foundation he gives them. Todd Hendrix, who has become a great friend, who has been willing to travel with me in in this journey teaching me tricks of handling, Elden Miller, for always supporting us, win or lose from the time I started, Kristy, for insisting that to do it right we needed to improve the quality of our dogs and training. No matter how attached to the dogs I had, she pushed me, and I knew it, that I needed to get dogs that could compete at that next level. (she would tell you life changed for us when we got Brittany's however)

I know I am missing so many people who have helped or influence me – and I hope no one gets mad at me for not mentioning them – but this is such a community of people that truly care how each other does – and will answer questions – if someone carries a NSTRA label – somehow whether you know it or not – someone learns from you.

## 9. What would you tell someone the best way to prepare for a Championship trial?

There is 3 pieces to this game, Genetics, Training, and Handling.

Genetics- there is a good chance we are all familiar with the best dogs in the country in all the different breeds, so when I started playing, I did not have that caliber of dog. I traveled around as much as probably anybody in the country and saw all the good dogs from everywhere. It didn't really make sense to me to worry about a dog costing 1200-2000 vs one that costs 800 as a puppy. Considering how much I would spend every weekend trialing it didn't make sense to go cheap on a puppy when you could have the very best genetics for a little more and increase your chances to have a really top shelf dog.

Training-As I said earlier, honestly, I am not a trainer. And with so few birds to train with, and winter weather what it is in ND, the best thing I ever did was send my dogs to one of the best in the country. I truly believe 90% of the people in this game are better trainers than I am.

Handling- so with everybody being better at training, and everyone able to buy quality dogs if they want to how is it, I have been fortunate enough to win DOY or place in the top 4? I believe its handling. That is diligently for years watching, studying and picking the brains of the Scott Townsends, Mikeal Mulberrys, Greg Woods, John Resa's, the Little boys, Roger Parent, Sam Ashmore, Bo Nutt, Brandon Ralston, The Laraway's, Etc. Etc.... I can go on and on with people like that who win consistently because of how good a handler they are. I'm sure I'm going to get grief from some folks I forgot to mention here again, but I really believe that there are lots of dogs truly trained well enough, with the caliber of genetics behind them, to win a national. The reason the people I mentioned keep appearing is because they are all very competitive and handle at the next level.

## 10. Anything I could add to this?

Guess I could point out the reason we all do this, is, 1) we love our dogs, 2) we want to do something with them outside the hunting season, and 3) we all probably played competitive sports growing up so its in our blood to compete. I get the most pleasure in this game when someone steps up and asks for help or advise and I can share anything I can to help them improve because I know I would not have had the success I have had if someone had not done that with me and continue to do so even today.

ask more of their dog than to not only prove his worth as a competitor, but to also have the genetics and ability to pass that worth down through several generations.
